Brophy Demands Lewis Endorse Nationalization of Coal

TWO BIG COAL MINE TRUCE ARRANGED BY INTEREST RUNNING DISASTERS TAKE HUNDREDS LIVES COMMANDERS IN SMYRNA HARBOR HIGH IN CONTEST HERE TONIGHT

Explosions at Dawson, N. M. and Vancouver at About the Same Moment Are Serious.

190 MEN ENTOMBED

Two great mine disasters at almost the same moment late yesterday afternoon bid fair to increase the already high mortality in the mining industry. Yesterday afternoon about 2:30 o'clock the Denver, Colorado, office of the Phelps-Dodge Company received a message from Dawson, New Mexico telling them that Mine No. 1 blew up, but no further details could be had until late last night.

At the same moment the Cumberland Mine on Vancouver Island, British Columbia, blew up as a result of fire damp.

Just what the death toll will depend on what later dispatches have to tell as both mines are located in out-of-the-way corners having little or no facilities for rapid news transmission.

The first dispatches were received from the Dawson disaster where it is now certain that one hundred and twenty-two men were entombed. At an early hour this morning only four bodies had been recovered and these were in the main travelling ways and not at the working face.

According to best information the main entrance to the mine is of concrete and it was this that caved in as a result of an explosion. The 118 entombed men were at least a mile away from the point of the cave-in and nothing could be ascertained as to their fate. The only hope is that they have been able to throw up a wall that would protect them from the deadly poisons in the air.

At noon today six bodies had been recovered from the Dawson mine and rescue parties reported that they had penetrated deeply into the workings and discovered large numbers of dead miners. It is feared that all entombed will be lost.

The latest reports from the Vancouver mine is hardly less encouraging. Late reports show 28 bodies removed and at least seventeen more in the shut off workings with practically no hope for them.

Vancouver, B. C. Feb. 9.—Twenty-eight bodies have been removed from the Cumberland mine and seventeen others are now entombed. Of the bodies recovered, twenty were white and the eight were orientals. Forty are now known to have lost their lives and the death list is not expected to exceed 45.

DEBT BILL HITS A SNAG; LA FOLLETTE AND LODGE BALK

Washington, D. C., Feb. 9.—The House early today took up the Debt Refunding bill with indications that it would pass tonight or early tomorrow. In the Senate, however, the administration plan struck a snag with Senators LaFollette and Lodge demanding a full hearing before the Senate Finance Committee and the hearing will be held tomorrow. Secretary Mellon has been summoned to appear before the committee with all the details of the plan.

WILL PREACH HERE SUNDAY

Rev. Bertram H. Conley, of Curwensville, will preach in the Presbyterian church Sunday morning at 10:30.

Although Angora Agent Notifies Allies That Ultimatum Cannot Be Revoked In Entirety.

SITUATION TENSE

Reports from the Near East situation are rather conflicting today. An early report declared that Adnan Bey, Turkish representative of the Angora government had notified the Allies that it would be impossible to revoke the ultimatum giving the Allies a short space of time in which to entirely evacuate the Smyrna harbor.

A later report says that the Turkish Commander at Smyrna and the Allied Commanders have come to an agreement whereby a "status quo" is to be maintained pending an opinion as to the right of Turkey to issue an ultimatum regarding the Smyrna harbor.

While there is little fear that the Turks will put their ultimatum into effect it is recognized that the situation is in itself a bomb as the Smyrna harbor is mined against attack and should any vessel attempt to leave there is liable to be a disaster which would have world wide significance and import.

Smyrna, Feb. 9.—It is believed here that the only American vessel in the Smyrna harbor is a small American destroyer of less than 100,000 tonnage which will not come within the terms of the Angora ultimatum.

MRS. PHILLIPS IS IN PENITENTIARY AT CHIHUAHUA

Houston, Texas, Feb. 9.—Mrs. Clara Phillips, the hammer murderess, is in the state penitentiary at Chihuahua, according to Lee Manning, Federal immigration officer, who returned from Alguin, the bandit, to America today. As soon as Manning returns Alguin to the authorities who want him, he will return to Chihuahua and arrange for the return of Mrs. Phillips to America.

FIND YOUNG COUPLE FROZEN TO DEATH IN A CLOSED CAR

Pewesauri, Mass., Feb. 9.—The frozen bodies of Miss Nellie Kleme aged 19 and Arthur Boysvert, aged 26, were found today in a closed car belonging to the young man on a lonely road in the mountains near here. The girl was sitting upright in the tonneau, her arm resting on the door, but the young man was crumpled in a heap on the floor. It is believed that the couple were overcome by the fumes of carbon-monoxide gas which generated through some defect in the engine.

Misses Bertha and Olive Renaud and Miss Marie Flanagan, all of Keewardin, are spending the week-end in Clearfield.

MASKED BAND VISITS OUTRAGES ON YOUNG GIRL WHO LEFT HER CHURCH; CUT TEN CROSSES UPON HER BODY

Chicago, Ill., Feb. 9.—Ten crosses were carved on the body of Mildred Erig, a young girl, by a band of masked men who carried her to a lonely road, then left her unconscious, according to a statement made to the police by the girl. According to her story the men seized her as she walked along the road, rushed her to a secluded spot and there wickedly

Old Rivals Will Face Each Other In Crucial Battle Which Will Decide Pennant Race.

BOTH ARE HOPEFUL

By DICK LEIPOLD

This evening the high school gym will be the scene of one of the most important basket ball contests that the local school has engaged in since the Brookville game here in 1920. It will be remembered that Clearfield and Brookville were tied for high honors that year and that the Jefferson contains arrived in Clearfield on a special train, three hundred strong and, headed by a brass band paraded from the station to the court house square. Over a thousand people witnessed the wonderful game, in which the locals came from behind and won their way to a championship in one of the greatest games ever staged here.

Great Game in Store For Feb. 9.—Everything points that the clash this evening between two ancient rivals such as Clearfield and DuBois will bring out some of the best basket ball seen in the county seat in years, as the two teams are rated by the sport experts as about equal in all around strength, despite the fact that Clearfield's only defeat of the season was at the hands of DuBois, a month ago in the opening league game.

Since that game the league records of the two Clearfield county squads have been the talk of the cage circuit, with the locals having a slight edge in the dope, as C. H. S. won the following four games, two at home and two abroad, while DuBois, playing equal number, dropped a contest to Punksutawney at Punks. And so, at the start of the second half of the league schedule, Clearfield High's passers who were thoroughly trounced in the first game, by hard consistent playing, find themselves deadlocked for top honors with the third class city tossers in the pennant race.

Championship May Be Decided. Altho it does not necessarily mean that the winner of this evening's contest will cinch the championship cup it does mean that the losing team cannot slip another notch, and still hope to have the slightest chance to remain in the running. The winner this evening will have a one game margin, and a defeat later will just mean another tie, if the other leaders continue to win. Brookville, altho twice defeated, is still "very much" in the race. They should defeat Reynoldsville this evening and will be tie for second place in the league standing.

Entire Squad Subject to Call. Coach Reed has been giving his peerless scrubs unusual attention during the past week and when in tact the second string team, played the Varsity men close in every scrimmage. Hody Johnson, star forward, will be paired off with one of the Barney brothers or Wilson, while

(Continued on Page 2).

SEVERELY CRITICIZES PRESIDENT OF U. M. W. OF A. AND EDITOR SEARLES IN FILING REPORT OF COMMITTEE

Tells Lewis He Will Lose His Office Unless He Takes Leadership and Makes Brophy Plan a Part of the Policy of the U. M. W. of A.

IS THE BEGINNING OF FIGHT FOR POWER

In a letter notifying President John L. Lewis of the U. M. W. of A. that he has completed his job as chairman of the National Research Committee of the United Mine Workers, President Brophy of District No. 2 says he has done a good job, formulated a plan in which there can be found no fault and calls for a united front and a spirited advance.

In plain English he puts the matter up to Mr. Lewis in an inquiring, "Will you as leader give us the lead?" There is a strong hint of criticism against Mr. Lewis running throughout the letter. He asks many questions in an effort, apparently, to smoke out Mr. Lewis and get an endorsement of his plan.

In exceptionally strong terms he arraigns the editor of the United Mine Worker's Journal, Mr. Ellis Searles, for refusing to give space to the committee and its work, and calls upon Mr. Lewis to throw open the columns of that organ to the principle of nationalization.

Mr. Brophy very kindly gave us a copy of his letter to Mr. Lewis and we re-print it entire believing that it may be the beginning of a rifle which may finally roll up to be a tidal wave.

Following is the letter:

Clearfield, Pa., February 5th, 1923
Mr. John L. Lewis, President,
United Mine Workers of America,
Indianapolis, Ind.

Dear Sir and Brother:

I submit my resignation as Chairman of the Nationalization Research Committee of the United Mine Workers of America. We have done our job. We have drawn up a concrete plan for nationalizing coal.

Recent events have made plain to you and me as to every other miner that Nationalization is the master current of the United Mine Workers of America. The tide gathers volume and will sweep irresistibly into the next International Miners' Convention in January, 1924. Who is the King? Canute that will sit on the beach and tell the tide to quit rising? It will splash him and float away his chair of office. The miners are feeling the power of an idea, and they see the driving force of a detailed plan.

The International Miners' Convention of 1921, and you, as President, outlined the duties of our Committee. You bade us familiarize ourselves with the problem by "consulting with authorities"; you asked us to formulate a "detailed practical policy to bring about the nationalization of the coal mines." And you ordered us to "aid in the dissemination of information among our members and the public."

We could not better your instructions, because they are all inclusive. But fulfilled them with results that surpassed our hopes. We consulted miners, labor men in other industries, economists, statisticians, Government officials, every type of expert opinion. In accordance with your order we drew up the plan as the result of this prolonged investigation. The only other ways of making the Plan would have been to let it drop into our mind as a perfect abstraction from a time-less world, or else to turn over the job to some group of professional liberals and let them project a theory. We did neither. We preferred the method of hard work and expert advice. We have presented the American Plan for nationalizing coal in a pamphlet "How to Run Coal" in which every detail is hammered home, and the full union strength and bargaining

(Continued on Page 4).

CONFESSES MURDER FOR WHICH NEGRO SUFFERED LYNCHING

Waco, Texas, Feb. 9.—Wier Mitchell, a mulatto, aged 25, has confessed to the Sheriff here to five murders committed within the last two years during a reign of terror which has baffled the police and all county and local authorities.

The tragedy of the confession is that Mitchell confesses to the guilt of at least one murder for which another negro was burned at the stake by an irate mob, something over a year ago.

The sheriff says that the man gave no motive for his wholesale murdering.

One Third Of Entire Force Of Dry Agents Now On Eastern Coast

Washington, D. C., Feb. 9.—One-third of all the Federal prohibition enforcement officers are now concentrated on the middle Atlantic coast and prepared for a final clean-up campaign. The Prohibition Bureau has sent 111 of its 330 agents into Pennsylvania, New Jersey, Delaware and Maryland.

KING LECTURE GREATLY ENJOYED

The lecture by Dr. Byron W. King of Pittsburgh on "The Uplifted Christ" at St. John's Lutheran church last evening was really an educational as well as a religious event of the season. That Dr. King and his ability are both well known to the people of Clearfield was attested by the splendid audience which greeted him, it being necessary to throw open the Sunday school room in addition to the main auditorium of the church to accommodate the crowd. Beginning with a wonderful interpretation of the Twenty-Third Psalm and closing with a powerful portrayal of the wonderful God of Love as demonstrated in John 3:16 he moved his hearers from tears to smiles at his will. To have heard him was to have gone out with a brighter view of the world today however and we venture the opinion that there will be a demand to hear this noted orator again in the not far distant future. He came to Clearfield under the auspices of the Women's Missionary Society of the Lutheran church and the proceeds of the silver offering will go toward the Laura E. Gilliland Nursery at the mission station in Africa which this congregation is erecting.

CARD OF THANKS

Mrs. A. Couwick and Mrs. D. D. Guppy desire to thank all those persons who presented them with coupons in the Workman's Store contest which resulted in the securing of the sewing machine for the Children's Home.

Mr. and Mrs. Samuel Warner of South Second street left this morning for Akron, O., called there by the death of Mrs. Warner's mother.

Mr. and Mrs. Bert Miller and Mrs. D. V. Smith of Williamsport, Md., visited their niece Mrs. Walter Folling yesterday.

COUNTY LIBRARY IS SPEAKER'S SUBJECT OF GREAT INTEREST

W. C. Pentz, Esq., One of Committee Appointed by Grange, Makes An Exposition of Plan.

DR. KING SPEAKS

Clearfield Rotarians and their guests had the privilege of listening to two highly interesting addresses at the regular meeting of the club held in the Hotel Jordan last evening. Secretary Howard Stewart presided at the meeting by courtesy of President Albert Bigler, and made a highly successful job of it.

Several announcements of interest to the club were made by President Bigler and the "On To Frederick" committee were advised that thirty-six persons had already decided to accompany the Clearfield delegation to the District Convention at Frederick, Md., March 15 and 16.

At the conclusion of the regular business Attorney W. C. Pentz, of DuBois, was introduced and in a highly interesting thirty minute address advanced the idea of a "County Public Library" for Clearfield county.

Mr. Pentz, who is one of the originators and strongest supporters of the public library in DuBois, was full of his subject and presented an unanswerable argument in favor of a library as a county proposition or asset. He took a leaf from their experiences in DuBois and told many interesting things concerning the growth and development of the idea in the third class city.

The library scheme provides for the location of the library proper in Clearfield, as the central point, but every school house, Grange hall or church in each community could be made a subsidiary or branch, where books could be kept and supplied to readers in the community. The advantage of the plan has already been seen by the Grange of the county, which, at its meeting in Kylertown a few months ago, adopted resolutions favoring the establishment of a county library and appointed a committee of three, of which Mr. Pentz is one, to further or develop the movement throughout the county.

The speaker said that in pursuance to that commission this committee had been earnestly at work and as a result thereof a resolution favoring the plan was adopted at the recent County School Directors' Convention, while the teachers, the preachers and other leaders of thought throughout the county had been circled and asked to assist in forwarding the movement by educating their people to support of the proposition to the end that the idea will receive general support.

In stressing the need for a public library Mr. Pentz said its great need was to safeguard our American institutions.

"DAVEY" KRANTZ, CONVICTED PRISONER OF BOOTLEGGING WITHIN A YEAR, IS PAROLED AFTER SERVING 3 MONTHS

"Lucky Antone" had nothing on David Krantz, the DuBois bootlegger convicted of violating the liquor law in one year and now able to tell the tale of his experiences on the outside of the Clearfield county jail.

Early in the year 1922 or maybe in the latter reaches of 1921 Krantz was convicted of violating the liquor law by selling a quart of whiskey to Officer Gearhart of DuBois. He was fined \$50 and given ten days in jail, which sentence he served.

In June last Chief of Police Clark and Constable Korb of Curwensville found Davy in their town with a truck load of hooch. The truck and hooch were seized by the officers but Davy managed to "fade away." He remained away until last November, when he came into court and entered a plea of guilty of violating the liquor law again. For this crime he was

GRAND JURY PROBE IS GOING ON TODAY BEHIND THE DOOR

Many Witnesses Called and Visit to the Jail Made This Afternoon Report to Be Printed

PRISONERS CALLED

The investigation of conditions in the Clearfield county jail by the Grand Jury was begun by the august body at 9 o'clock this morning as per announced schedule. This investigation which grows out of certain statements made by Rev. Richard Allen Hatch of St. Andrew's Episcopal church at a recent meeting of the Clearfield Rotary Club, was arranged for by Judge Bell, who announced at the meeting following the statements made in his address that Rev. Hatch would be subpoenaed to appear before the Grand Jury.

On account of the nature of the investigation and its concern to the public many people were of the opinion that the hearing should be a public one in the court room. Judge Bell, in an address to the Grand Jury previous to their beginning their hearing in the jurors' room, stated that he had decided on this point. The Grand Jury thereupon, in effect at least, effected the investigation was made the private concern of those of the public generally and left it up to the newspapers to give out what information they could gather from the scene of the investigation, the testimony given, etc., also feeling they could pick out and write into their reports such matters testified to as would be of interest to the public.

Judge Bell made a lengthy address to the Grand Jury in which he outlined the events leading up to the investigation. He discussed the charges against it at length and told the jury that under the law the County Commissioners as a Board were in full and complete charge of the jail and responsible for its condition and management.

Judge Bell also informed the Grand Jury that no propaganda for a new jail should be countenanced at this time, that there was no need or occasion for a new jail, and that legislation would undoubtedly result in making county jails merely detaining houses.

In commenting on Rev. Hatch's charges Judge Bell said that the County Commissioners had reported a lot of the defects complained of about Rev. Hatch had been emphasized, but that this should not have been done while the investigation was pending.

At the conclusion of Judge Bell's remarks the Grand Jury retired to their rooms and took up their hearing. The first witness summoned was Rev. Richard Allen Hatch of St. Andrew's Episcopal church. Rev. Hatch was on the witness stand for almost an hour.

"DAVEY" KRANTZ, CONVICTED PRISONER OF BOOTLEGGING WITHIN A YEAR, IS PAROLED AFTER SERVING 3 MONTHS

sentenced to pay a fine of \$100 and costs and undergo imprisonment in the county jail for a period of three months.

A parole was granted Davy Thursday by Judge Bell and he was released from further jail sentence conditioned on his good behavior and agreeing to make his place of residence somewhere outside of Clearfield county when asked to do so by the Court and District Attorney. Davy is also required to report the general state of his behavior, etc., to Henry Klewans, of DuBois, every week. The parole states that it was granted on account of the state of health of the prisoner's mother, who is now by Dr. Jordan of DuBois, to be "worried so over her son's imprisonment that she is almost crazy." A statement was submitted to by Davenport and Dr. Free.

THE OLD HOME TOWN

By Stanley

INTEREST RUNNING HIGH

Continued from Page One

"Nack" Dvor will start at center with Boyce and Moore in reserve of by "Swale" Johnson, Pierce and Mitchell while Captain Brown may be in the game at center or forward for a short time. It is feared that his sore ankle would not stand up very long. A crowd of about 100 persons gathered at the game and the doors to the gymnasium opened at 7:30 p. m.

Doors to Open at 7:30

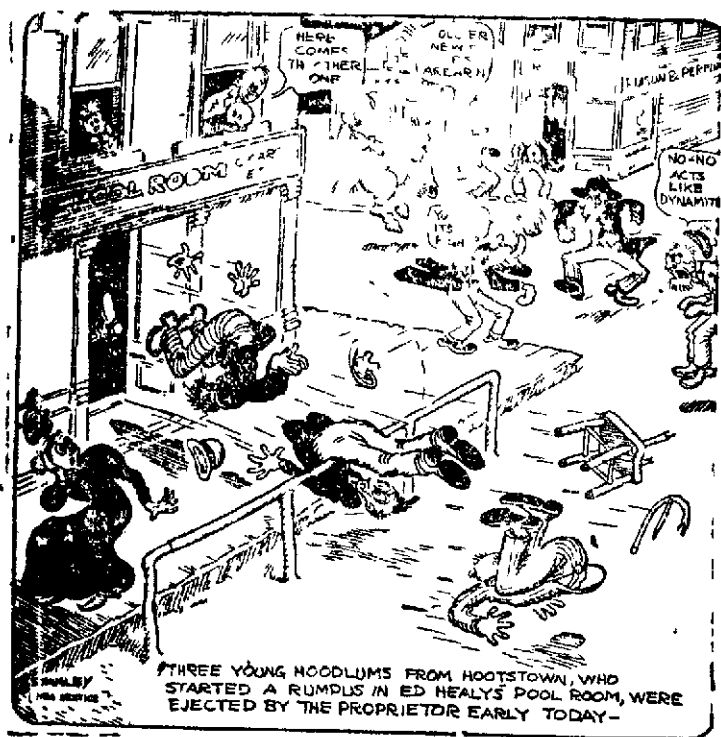

In order to do away with the "scalpers" who buy up as many tickets as possible, no pregame sale of tickets was allowed by the local management. Tickets promptly at 7:30 o'clock the doors will open for the sale of tickets. Students will be taken care of at the West Entrance and townspeople at the regular door. Every one will be asked to stand in order to try and take care

of the special tribulations from "Tunk" Edwards and George W. Spangle from the jail, Elmer Sackett, the plumbers who made the recent repairs and I. R. Waple, of Lettinger Bros., who placed new bedding in the jail all testified.

GRAND JURY PROBE GOING ON TODAY

Continued from Page One

He was followed by Attorney W. A. Harty, Jr. which called to the jury to go to the jail and to the County Commission. The jury was then taken to the County Jail by the County Jailor, and the jury was then taken to the County Jail by the County Jailor, and the jury was then taken to the County Jail by the County Jailor.

THREE YOUNG HOODLUMS FROM HOOTSTOWN, WHO STARTED A RUMMUS IN ED HEALY'S POOL ROOM, WERE EJECTED BY THE PROPRIETOR EARLY TODAY.

Wrinkles and Wrinkles? Be Glad for the Fields. Be thankful to the fields, though summer's secrets be dead. It was their decree that clothed you; their green blades brought you bread.—Frank L. Stanton

CLEARFIELD AUTO PAINT SHOP

This community has never been supplied with an up-to-date Paint Shop for refinishing automobiles. I have just erected and fitted up a new shop with all the latest equipment. Am safe in saying there is no other shop in this territory that would surpass it in any way.

The cars will be cleaned with high steam pressure, which removes all mud, grease, tar and other foreign substances before the paint is applied. The latest improved air brushes have been installed, also an air-tight finishing room with a temperature that bakes the finish and makes your car look like new.

Will be open for business Monday, February 12th. Located on Smith Street, near Ogden's Garage.

William McCormick.

No more Rheumatism

"Suffering has gone from your face, mother!"

S. S. S. Is the Great Builder of Red Blood Cells and Rheumatism Must Go! Just Try It!

The most common ailment of the human body is rheumatism. It is a disease that is caused by a lack of red blood cells. S. S. S. is the great builder of red blood cells and it will cure your rheumatism. It is a simple, safe, and effective remedy that will give you relief in a short time. S. S. S. is the only remedy that will build up your system and give you the strength and vitality that you need.

S. S. S. makes you feel like your old self again.

ODDS AND ENDS
AND THINGS

By J. D. C.

The Gulf Stream, which has long been charged with controlling weather changes has given use to many interesting observations as to what might happen in case this wonderful body of water would change its course. Recently an inquiry was directed to (Arrest P. Serviss, the eminent New York scientist, in which he was asked for an article on the Gulf Stream. Here is his reply:—

You probably know how the "hot-water system" of house-warming acts, and perhaps you know why it heats the house. In that case you have already in mind the elements of the answer to your question.

The Gulf Stream is a kind of hot-water system for distributing heat in the Atlantic Ocean. Some of the bordering lands of that ocean, like the rooms in the house that are not furnished with radiators, get the benefit of the heated currents passing near their shores, and warming the air that flows over them.

As to the details of that relationship meteorologists, geographers, mariners and physicists are not in accord, but I think that none of them would deny that the Gulf Stream plays a large part in the general climatic conditions of the North Atlantic Ocean and its adjacent continents.

Child of Trade Winds.

The Gulf Stream, which Lieutenant Maury, in his great book about it, called "a river in the ocean," pours out of the Gulf of Mexico (which gives it its name), between the peninsula of Florida on one side and Cuba and the Bahama Islands on the other. But it has its birth in the midst of the Atlantic Ocean, west of Africa and between the tropic of Cancer and the Equator. It is a child of the north-east trade winds, which flow constantly toward the American shore from the direction of the Canary and the Cape de Verde Islands.

The wind sets in motion a broad, shallow film of water on the ocean surface, and this, when it encounters the sloping northeast shoulder of South America, trends northward and passes through the sieve of the Lesser Antilles Islands into the Caribbean Sea. Being constantly driven on from the east, and gaining in depth as its area becomes restricted, it is driven through the Yucatan Channel into the Gulf of Mexico.

Here the wind-driven water accumulates to such an amount that it raises the level of the Gulf at a maximum 8 feet above that of the ocean. The Gulf forms a cul de sac for the invad-

ing water, from which, since it cannot go backward, it seeks escape by the sole practicable way, viz. the opening toward the east offered by the strait, or channel, of Florida.

Immediately after pressing through the narrow strait, where it becomes, on account of the great volume of water accumulated in it, a veritable river fifty miles' broad, and 1,000 feet deep, sweeping the rocky bottom of the strait clear of sand and mud, it encounters the Bahama Islands, and turns north-eastward, following the trend of the American coast. Its surface temperature is above 80 degrees, but this declines toward the bottom.

New England's Cold Coast.

On issuing into the ocean it is met by the so-called "cold wall," a body of cool water lying along the coast and derived from the cold Labrador current which comes down between Greenland and North America, and crowds it in toward the New England coast, forcing the Gulf Stream off toward the east. The "cold wall" no doubt plays an important part in the production of New England's bitter weather in the early spring.

Now, to return to the figure of the hot water heater, the reason why the Gulf Stream is so effective in warming lands that lie near its course is simply that water has a remarkably high heat capacity.

It is four times that of air, and five times that of earth. It carries its accumulated heat derived from the tropical sun for a long time and to great distances, giving it out gradually to the air. Many Atlantic voyagers are familiar with the oppressive atmospheric heat encountered in crossing the Gulf Stream region in Summer time. It is like the air of a close room containing a radiator full of hot water.

Stevenson's Warning.

A day or two after his death the writing was found on the desk of Robert Louis Stevenson: "Now take warning by me. I am set up by a beneficent Providence at the corner of the road, to warn you to flee from the behemoth that is to follow. So remember to keep well; and remember rather anything than not to keep well; and again I say rather anything than not to keep well."

English Women Weather Prophets.

Three young women employed at the Meteorological Office in London claim to be the only women weather-forecasters in Great Britain. All three are university graduates and fully qualified by practical experience to deal with all the problems of forecasting and compilation necessary in the preparation of the daily weather reports and prognoses.

The best coming cream for men only.
F. W. Gents a Jar at any Drug Store.

Even stubborn, unruly or shampooed hair stays combed all day in any style you like. "Hair Groom" is a dignified conditioning cream which gives that natural gloss and well-groomed effect to your hair—that final touch to good dress both in business and on social occasions.
Millions use "Hair Groom" because it does not howl on the hair. It is absorbed by the scalp, therefore the hair remains so soft and pliable and so natural that no one can possibly tell you used it. Not sticky or smelly.

FEW FOLKS HAVE
GRAY HAIR NOW

Druggist Says Ladies Are Using
Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.
Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Weyth's Sage and Sulphur Compound" which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Weyth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

RELIEVES CONSTIPATION
Kellogg's BRAN
READY TO EAT
THE ORIGINAL NUTRITIVE CEREAL
W. K. Kellogg
KELLOGG COMPANY
BATTLE CREEK, MICH. AND TORONTO, CAN.

KELLOGG'S BRAN
is a blessing to humanity.
It relieves Constipation
because it is ALL BRAN!

Kellogg's Bran every day is permanently relieving thousands of constipation sufferers throughout the world. No other food in history has done so much to give back health to men, women and children. IT IS SCIENTIFICALLY PREPARED TO HELP SUFFERING HUMANITY AND IT WILL DO THAT AS NO OTHER FOOD CAN! Physicians universally are endorsing Kellogg's Bran because it acts naturally and positively, and because it frees sufferers from the habit-dangers of drastic cathartics.

Kellogg's Bran has won national recommendation because it is so delicious aside from its regulatory value. Do not confuse Kellogg's with common bran which are unpalatable and hard to swallow. You will relish the nut-like flavor of Kellogg's Bran; it adds greatly to the enjoyment of hot or cold cereals!

Eat Kellogg's as a cereal or sprinkle it over your favorite hot or cold cereal. Another popular way to serve it is to cook it with hot cereals. In preparation, add two tablespoonfuls of bran for each person when the cereal is cooked. You'll like it with hot milk! Kellogg's Bran makes wonderful cookies, raisin bread, pancakes, etc. Recipes on every package.

To win permanent relief it is only necessary to eat Kellogg's Bran regularly and to be certain to eat at least two tablespoonfuls each day; in chronic cases, with each meal.

The relief Kellogg's Bran gives, as a natural bowel agent, is wonderful. Without the slightest distress it sweeps, cleans and purifies, ridding the system of toxic poisons and warding off some of the most terrifying diseases to which human beings are heir.

Don't delay this natural relief; give your family the benefit of this message of health—this great blessing to humanity! Kellogg's Bran is served in individual packages by leading hotels and clubs. Ask for it at your restaurant. All grocers.

Kellogg's
the original BRAN—ready to eat

SEVERELY CRITICIZES PRESIDENT

(Continued From Page One.)

power of the United Mine Workers of America are maintained and safeguarded for all time. Your Committee challenges critics of the plan to point out a weak place. The only possible opponents of the plan are those who are opposed to the principle of Nationalization. All such opposition we desire to locate and to face open. We offer the American plan for Nationalization as the only adequate solution for the present crisis of coal. We submit that in it we have met your conception of our duties.

As to the disseminating information among our members and the public, we have obeyed your orders. The Miners' American Plan for Nationalization has been published in newspapers throughout the country. Editorial comment is almost universal. Every prominent union official is being flooded with inquiries.

The time has come for a united front and a spirited advance.

Will you as leader give us the lead?

Will you throw open the Mine Workers' Journal to our plan?

The newspapers of the country are willing to devote columns to our findings, but our own official organ refuses to carry a paragraph. The editor, Ellis Searles, attempts to discredit our efforts by filing a "Red" herring. Our plan was not "in part prepared for the Committee by some well known New York radicals." They would be the last to gain connection with the matter under discussion, because the facts reveal their innocence. To permit our organizations to butt into labor is the destruction of trade unionism. The methods of the Nationalization Research Committee, in preparing a case, have been the same as our own methods—no recognition of outside organizations in union affairs, consultation with individual experts in details, a trade union decision on policy.

Will you mail copies of the American Plan to the 600,000 union miners? If the plan does not embody their aspirations in concrete form this will kill it. Replies we have received from miners in every coal district of the United States show that the plan is the answer to their unrest and the rallying point for the larger policy of the union.

Will you urge upon the officials of the twenty-six districts of the United Mine Workers of America a powerful intensive campaign of education, district by district, in support of Nationalization?

Will you appear before the Coal Industry Fact Finding Commission in support of the Miners' Nationalization Plan?

Will you take the platform in behalf of Nationalization in miners' meetings and public meetings, during these next crucial eleven months?

Will you aid in drawing up a bill for Nationalization, to be presented

at the next International Convention?

We can promise you support from the rank and file, and an overwhelmingly favorable vote.

These are six important next steps in the Miners' Program.

The coal operators are discredited and defeated in the Court of Public Opinion.

The public is disgusted by the development, mismanagement and waste of the coal industry, and is ready for a large-scale solution.

The Miners are determined.

The movement waits on you. But it will not wait long for any leader. It will create its own leaders.

Hampered by the silence of the Mine Workers' Journal, and by the lack of hearty official support, our Nationalization Research Committee hereby appeals directly to the rank and file. We have done the work you ordered, but we have not received the support you promised. We shall continue to carry on the work outlined in the American Plan. We shall demand speeding up the campaign for Nationalization in the ways specified in this letter. We enter the last stages of this fight, which will end victoriously in the International Convention, not as a Committee, but as miners representing the rank and file.

So I submit my resignation as Chairman of the Nationalization Research Committee. And I urge you as International President, to aid the miners in their American Plan.

Fraternally yours,

JOHN BROPHY,

President District No. 2,

United Mine Workers of America

Not Able to Function.

Chivalry may not be dead, but there are times—in elevators,rolley cars and other places of public resort—when it appears to be in a comatose condition.

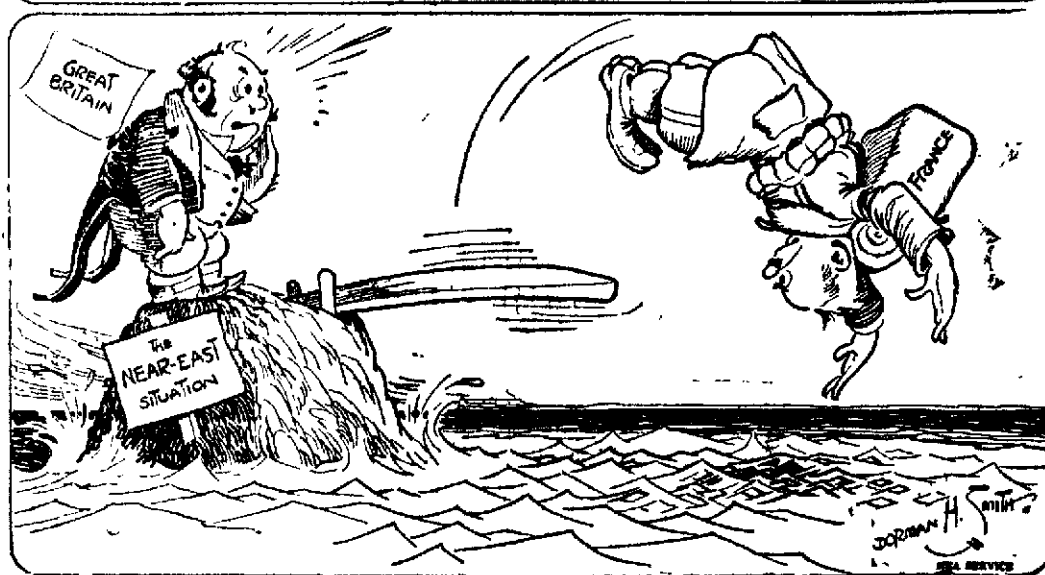

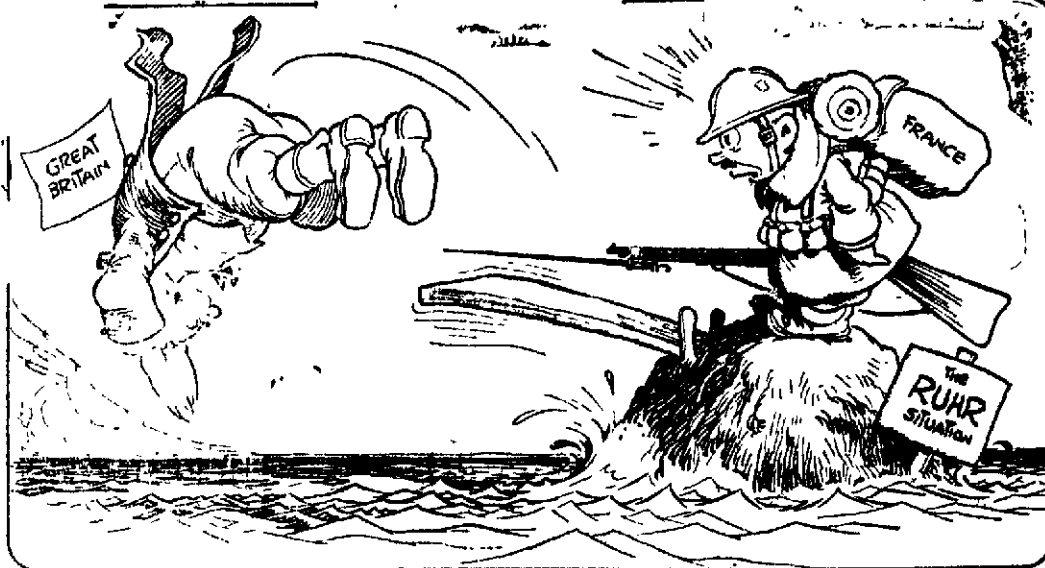

Quadruplets Rare.

Quadruplets are twenty times as rare as triplets and more than 2,000 times as rare as twins. Roughly the proportion is one set of quadruplets to 250,000 births.

Stray Bits of Wisdom.

Every day is a gift I receive from heaven; let us enjoy today that which it bestows on me. It belongs not more to the young than to me and tomorrow belongs to no one. —Munroe

TIT FOR TAT!

(National Crop Improvement Service.)

ONE of the principal complaints against railroad service, especially in the West, is that the rates are so high that farm profits are absorbed.

Farmers are asking that rates be reduced on grain and agricultural products to the pre-war level.

There have been many remedies suggested, but the one by A. R. Fugina, signal engineer of the L. & N. R. R., seems to be one of the most sensible. He claims that it is possible and practical to operate trains by signals instead of written orders.

"With a properly blocked signal system, the signals to govern train movements into and out of sidings, trains may be moved safely on

single tracks without written orders and with but few train rules," says Mr. Fugina. "Perhaps the best example of this method is that in use on the Erie between Port Jervis, N. Y., and Chicago, a distance of about nine hundred miles. There is a telephone provided at each signal point, and instead of train orders, the movement of the train are directed by the signals and in case of any doubt, the train rule is to stop on main track and consult dispatcher on the telephone.

"The speeding up of trains is probably even more important than the addition of more power and rolling stock at present. The prompt loading to capacity and unloading of cars alone would greatly relieve the congestion if universal."

It Can't Be Done.

Because one has seen a hundred of the greatest celebrations and great doling of life, he should not belittle them and discourage those who have seen but few, anyway, he can't.

First Study, Then Achieve.

Try thyself unweariedly till thou findest the highest thing thou art capable of doing, faculties and outward circumstances being duly considered; and then do it.—J. Stuart Mill

Realistic.

In a school essay a child wrote that a thrush said, "Mrs. Hewitt, Mrs. Hewitt" so often and so clearly in their village that at last Mrs. Hewitt came to her door and said "Yes?"

Biblical Book Titles.

The Bible has provided numerous titles for novels. Instances are: "A Fountain Sealed," by Sir Walter Beant; "Whoever Shall Offend," by Marion Crawford; "Mam's Inventions," by Rudyard Kipling and many others.

Rub Rheumatic Pain, Soreness, Stiffness

Rub Pain right out with special trial bottle of aid "St. Jacobs Oil."

What's Rheumatism? Pain only. Stop drugging! Not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" directly upon the "tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism and sciatica liniment, which never disappoints and cannot burn the skin.

Limber up! Quit complaining! Get a small trial bottle from your druggist, and in just a moment you'll be free from rheumatic and sciatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. Old, honest "St. Jacobs Oil" has relieved millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings.

EVERYTHING FOR OFFICE EFFICIENCY

The greater the efficiency of your office the more work can be done in a given time and by the same force. Investing in efficiency equipment for your office is one of the best investments you could possibly make, inasmuch as you cut down that great bug-a-boo, "overhead." We have everything here that will go for the proper running of your office with the least possible force, which you will admit is the height of economy.

"Drop in and talk it over some time. We have been equipping offices in this city for a long time and possibly we can be of aid to you.

Tom Sims SAYS---

The first sign of spring will be the funny new soft drink names. Raising a family is an expensive hobby but usually worth the money. Europe seems to think peace will take French leave.

The man of the hour seldom lasts longer than that.

A Montreal man can lift 503 pounds. That is two kegs or nine cases.

Isn't it strange that golf is a Scotch game and so expensive?

The man who tells a girl he would die for her wouldn't be so rash if he had ever tried it.

Our kick against the future is it moves as fast as we do.

People who worry about everything usually worry about nothing.

A man can be pretty smart, but never both smart and pretty.

Nice thing about having a family is you can ask the judge to pity them when you get arrested.

Moving all the seasons up three months would satisfy everybody.

Longer winter lasts the longer it will be before we have to try to open street car windows.

Reader asks if the boy seeing with a transplanted pig eye is liable to get a sty in it. No.

"Dress to suit your personality," says M. Sourine. But wouldn't that make the girls with no personality too popular?

All of us wonder where on earth our money goes.

State Constitutions.

State constitutions reveal the constancy in the development of American political institutions. They have been called by Bryce "the oldest of the oldest" and by the political history of America, "the first of the first."

And again, "the first state constitutions were little more than the pre-existing colonial constitutions adapted to the changed circumstances."

Progress.

The man who is ready to give up the opinion he will hold tomorrow will be precisely the opinion he holds today has either thought very little, or to little purpose, or has resolved to quit thinking altogether.

Helen Hunt Jackson.

Can Be Made So.

Flattery may be a vice, as one of the ancient philosophers said, but sometimes "plain speaking" almost seems to be.—St. Louis Globe Democrat.

Computation of Centuries.

A century is a period of one hundred years. This is the most common signification of the word, and as we begin our computation of time from the incarnation of Christ, the word generally is applied to some term of one hundred years subsequent to that event, as the first century A. D.

Power of Philosophy.

Philosophy can take us no bread; but she can procure for us God, free love and immortality.—Scotts.

Why Rheumatism Comes With Cold Weather

A close connection exists between those two—cold weather and rheumatism. Prof. Alex. Haig, of London, has the most followers in the medical profession in the belief that the presence in the system of uric acid, or its salts in excess, is the real cause of rheumatism.

Several causes may lead up to an accumulation of uric acid in the system, which, in turn, causes rheumatism or gout, creaky or painful joints, or swollen fingers. For one reason the skin does not throw off the uric acid, by profuse sweating, as in hot weather, and the kidneys are unable to take care of the double burden.

Does It Catch You—right in the back?

It may be that you are attacked by pain in back (lumbago) or limbs, "neuralgic" pains—shooting anywhere. Backache is often caused by kidney disorders, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys. Perhaps you have become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, and lack ambition to do things. The latest and most effective means of overcoming such trouble, is to drink plenty of water between meals, and take a single An-uric (anti-uric-acid) Tablet before each meal for a while, or until recovered.

Many folks in town as elsewhere in this state have been benefited. Bradford, Pa.,—"For ten years I suffered with kidney and bladder ailments, my kidneys were congested and inactive causing me to have severe lumbago pains through the back and hips. I also had what the doctors called uric acid poisoning and I would have headaches and spells that would last for a week at a time. I took three bottles of Dr. Pierce's Anuric (kidney and backache) Tablets and was completely relieved. Have never had another attack."—L. F. Wilson, 61 York St.

Simply ask your druggist for Dr. Pierce's Anuric (kidney) tablets. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial pkg.

The New Spring Suit

Written by HEDDA HOYT
Fashion Editor of The United Press
(Written for the United Press)

New York, N. Y., Feb. 9. (United Press)—The sash is the tie that binds the spring suits together. Whatever be their lines, there is bound to be a sash of some description on the new suits.

There are several types of suits for the coming season, but the type which will be universally accepted is the two piece suit, with the short jacket which fastens at one side with a bow not of looped sash end. Coat blouses of printed silks and jersey cloth will be worn with them and there never has been such a vast display of printed blouses as there is now.

Youthfulness is the keynote of the spring styles. Straight, slender lines are to be the thing for the coming season. Jackets are confined rather snugly about the hips over slender skirts.

One of the most successful models that is already being sold in the shops is the suit of tan colored Vicuna cloth which is soft and woolly in texture, though light in weight. It is bound in braid of self-color and tied at one side with a wide tan satin ribbon bow. The short jacket is made on simple lines, adding an appearance of youth and chic to an inexpensive suit. Worn with a blouse of Paisley coloring, this type of suit is extremely smart.

For sports wear the "natural" colored tweed suit is of the smartest costumes for early spring. Worn with colorful hand woven scarfs and the new, small, felt sport hats, they become extremely chic. Many of the

fashionables at Palm Beach are simply living in these sport suits. Lately it is considered good form to wear them for most all occasions. It is not unusual to drop in at a country home to tea and find one's hostess in a knitted or tweed sport suit with a white blouse. Even formal calls do not demand the dressy gown today. A good rule to follow when in doubt as to what to wear is wear a sport suit.

A navy Poiret will gown imported from Paris is trimmed with dull green and purple velvet and has an accompanying hat of green straw trimmed with side pompons of purple velvet. The mixing of purple and green in dull shades is extremely popular in Paris at present especially for millinery.

Short Paisley jackets worn with an skirts will be seen this spring. The Spanish shawl is said to be the coming style for evening wraps for spring and summer months.

Lace and crepe is a popular combination for the dressy gown that is increasing every day. The lace is dyed to match the crepe and is used as sleeves, panels and as insets in the many-tucked crepe dresses.

The beaded gown has been dead and buried, according to designers, but its ghost is reappearing in the new spring styles. There are as many beaded gowns as there ever was and they are considered in good taste, in spite of the many cheap models that flooded the markets. The latest gowns are using beads of various shades combined in interesting oriental designs. One-toned beading has given way to more colorful effects.

Opinion Held by Too Many.

"Something ought to be done about everything," said an ironic philosopher. But what accounts for so many thinking they are Hamlets and exclaiming with him: "The time is out of joint. O, cursed spite, that I was born to see it right!"

Original Verses of Burns Found.

Four original verses written by Robert Burns were discovered in an old volume recently offered for sale in London. Inscribed in pencil, they have been inked carefully over by the first owner of the book, a friend of the national Scottish poet.—London Answers.

Why, of Course.

A young woman in distress writes: "We sent out sixty wedding invitations and only nine presents have been received. What shall we do?" How unresourceful you young people are! Get busy and rush out a follow-up letter.—Exchange.

Computation of Centuries.

A century is a period of one hundred years. This is the most common signification of the word, and as we begin our computation of time from the incarnation of Christ, the word generally is applied to some term of one hundred years subsequent to that event, as the first century A. D.

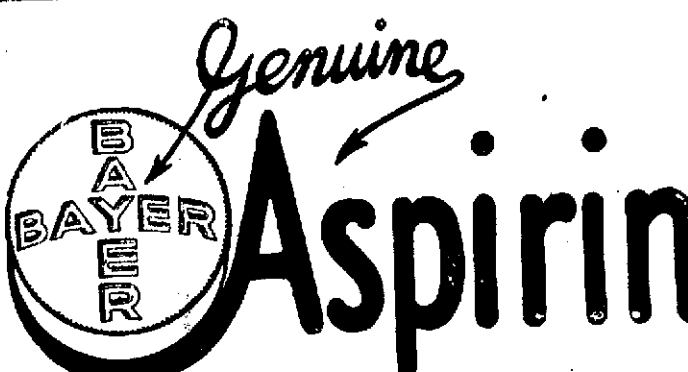

Power of Philosophy.

Philosophy can take us no bread; but she can procure for us God, free love and immortality.—Scotts.

Blue Grass Beauty

Miss Gladys Hicks, winner of the American Legion beauty contest in Louisville, Ky., has been cast as "Miss Columbia" in the prologue, which will introduce the legion's film, "The Man Without a Country."

SAY "BAYER" when you buy Aspirin

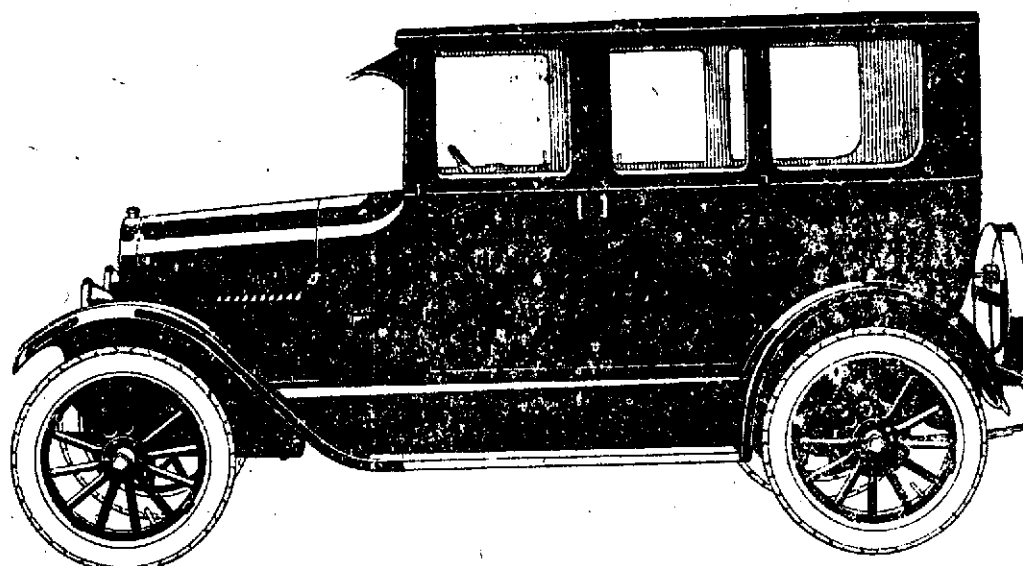

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty years and proved safe by millions for colds, headache, toothache, carache, neuralgia, lumbago, rheumatism, neuritis, and for pain in general. Accept only "Bayer" brand which contains proper directions. Handy boxes of twelve tablets cost but a few cents. Druggists also sell bottles of 24 and 100. Aspirin is the Monacetic Acid Ester of Salicylic Acid.

NOTICE OF APPLICATION FOR CHARTER

Notice is hereby given that an application will be made to the Governor of Pennsylvania on the 5th day of March A. D. 1923, by H. J. Thompson, C. O. Norris, C. C. McGee and others, under the provisions of the Act of Assembly entitled "An Act to provide for the incorporation and regulation of certain corporations," approved April 29th, 1874 and the supplements thereto, for the Charter of an intended corporation to be called "M and N Coal Company," the character and object of which is mining and otherwise producing coal, preparing the same into lump and the selling and shipping thereof, and for these purposes to possess and enjoy all the rights, benefits and privileges of said Act of Assembly and the supplement thereto.

ROLAND D. SWOOPES,
Solicitor for Applicants.

NOTICE IN DIVORCE

In the Court of Common Pleas of Clearfield County, Pennsylvania.

Mary J. Zigler vs. Joseph D. Zigler. No. 200 December Term, 1922.

To Joseph D. Zigler, respondent: YOU ARE HEREBY NOTIFIED that the undersigned Master, appointed by the Court to take testimony in the above entitled case and report the same to the Court with form of decree, will sit for the purpose of his appointment at his office in Clearfield, Pa., on Saturday, March 3, 1923, at 10:30 a. m., when and where you may attend with your witnesses and give testimony.

ALLISON O. SMITH,
Clearfield, Pa. Master,
February 5, 1923. 2/9/23

To Clean Eyeglass Chains.
The fine safety chains which are worn with eyeglasses are rather difficult to clean because they are so small. The best plan for keeping a chain of this kind bright is to give it an occasional bath in a sauce of soapy water. If very tarnished, it should be laid on a soft piece of flannel and scrubbed with a stiff toothbrush. It can then be rinsed in a tubeful of methylated spirit and dried on a piece of leather.

Chickens Got the Water.
I asked my little son, not quite four, to carry a pan of water down to the chickens. He soon returned with the empty pan. I said, "Why, Paul, I wanted you to give that water to the chickens." He answered, "I did, I threw it through the gate."—Exchange.

To Clean Aluminum.
The best way to clean aluminum is to squeeze the juice of a fresh lemon over a cloth and apply this to brighten the metal. When the aluminum is very much soiled a paste of whiting and water will help to clean it.

Unite To Save Future U. S. Citizens From Handicaps of Malnutrition and Ill Health

These four little United States citizens, ranging in age from babyhood to boyhood, illustrate graphically the indifferent nurture and care given to the great majority of our children.

America, the richest country on earth, today ranks last of the nations advanced enough to have statistics on maternal mortality, being twentieth on the list. It ranks sixth in its infant mortality rate. Twenty thousand mothers and two hundred thousand babies, such as you see in this little boy's arms, die here in 1920. And of all the babies who survive birth, barely seventeen out of every hundred reach maturity in proper physical condition. Of twenty-two million school children in America now at least six million are suffering from serious malnutrition, and urgently need medical attention, if they are not to grow up seriously handicapped.

It is to combat such a situation, to make America safe for its own future citizens, that the American Child Health Association has been formed. Herbert Hoover is its president, and it is a union of two great national organizations which have long been doing child health work in America. They are the Child Health Organization, whose president is Dr. L. Emmett Holt, and the American Child Hygiene Association, which for thirteen years has been fighting for better conditions for mother and child under the presidency of such national figures as Dr. Samuel McClintock Hamill, of Philadelphia; Dr. Philip Van Ingen, of New York; Dr. Henry L. K. Shaw, of Albany, N. Y.; Dr. J. H. Mason, of Lowell, Putnam, of Boston; Dr. St. Josephine Baker, of New York; and Josephine Baker, of New York. Its governing body will also include Dr. Livingston Farrand, President of

Cornell University, former chairman of the American Red Cross, and Dr. Thor. D. Wood, of Columbia University. Its ambition, briefly, is to give every American child a chance for health beginning with the period preceding its birth and continuing until it reaches maturity. Such a program is not feasible without the co-operation of every individual and every active agency in the country. Therefore the American Child Health Association opens its doors to all. In Child Hygiene Association brings into co-operation 321 affiliated organizations scattered throughout the United States and Canada. The aim will be to provide "here and there" with such information and assistance as will help to spread the gospel of well children. National headquarters are at 532 17th Street, Washington, D. C. Treasurer is Mr. Corcoran Thom.

COUNTY LIBRARY IS SPEAKER'S SUBJECT

Continued From Page One

tutions by properly educating the masses, presenting the following points in support thereof.

How is it educative?

1. It gives to those denied high school and college the means of studying at home.

2. To those engaged in "useful occupations" it gives books the study of which will fit them for higher positions.

3. To teachers it gives the books and magazines necessary, if they are to keep pace with the development of their profession.

4. To pupils in school it gives information beyond that contained in text books.

Does it benefit business men?

It places at their service indexes to all the leading business and technical periodicals as well as many of the periodicals themselves. Also the latest books on industrial efficiency and business methods. It keeps complete files of the Government and State labor reports and similar material.

It gives to employees of business men the books needed to make them more efficient and to enable them to fit themselves for better jobs.

How does it benefit the community as a community?

Schools, churches, clubs and organizations in general, cannot do as good work without an efficiency library as with one. A community's reputation depends largely on its educational and recreational opportunities. Good schools and good libraries are necessary if desirable persons are to be attracted to become residents.

Has it any part in Americanization?

A leading part! Children of non-English speaking parents use it and carry English books into the houses of foreigners. American books are the apostles of American ideas.

Foreigners who can read English use it, and from the books they borrow gain an understanding of what Americanism really is.

By supplying good, healthy reading matter, it does much to curtail the reading of vicious and injurious books by boys. The boys of today are the men of tomorrow.

The county library would be supported by public taxation. DuBois people pay a two-mill tax for the support of their public library, and while that would be the maximum assessment for library purposes, a county library tax of say one mill would make the proper start.

The Rotarians were very much impressed with Mr. Pentz's remarks and the Educational Committee agreed to heartily support the movement.

Rev. E. Roy Hauser, of St. John's Lutheran church, a guest of the club, then introduced Dr. Byron W. King of King's School of Oratory at Pitts-

Two Kinds of Polygons.

A portion of a plane bounded by a broken line is called a polygon, or, in other words a many-sided figure. A polygon that has all its sides and all its angles equal is known as a regular polygon. Triangles, squares, hexagons, etc., are polygons.

SOAKS RIGHT IN AND LIMBERS UP STIFF JOINTS

Pharmacists call it 'Joint Ease' because it's for Swollen, Sore, Painful, Creaky Joints Only

It took a good many years to get together a combination of pain subduing and swelling reducing agents declared to be the one remedy that almost instantly penetrates through skin and flesh and starts the process to make swollen, inflamed, creaky, pain-racked joints as good as new.

They call this new and wonderful preparation "Joint-Ease" because the medical man who turned the trick, worked for years to perfect some low-priced remedy that would really benefit the millions of people who have one or more joints that need helpful attention.

So "Joint-Ease" is prepared only for people who have swollen, painful, creaky, distorted or stiff joints, whether it be in knee, elbow, shoulder, ankle, neck or finger and whether it is caused by rheumatism or something else.

Of course, it can't help but quickly put an end to such superficial ailments as lumbago, neuralgia, neuritis, aching muscles, stitch in the side, crick in the neck or sore feet because its penetrating action, but what is really recommended for ailments of any nature whatever.

Ask for a tube of "Joint Ease." You can use it several times in one evening for quick results, because it goes right through the skin with only a few seconds' rubbing. It surely is a swift penetrator and when it gets under the skin, it starts right in to clean up all joint trouble.

All druggists dispense it daily for about 60 cents a tube, as do first class druggists everywhere.

Love of Argument.
"Why is betting an almost exclusively masculine habit?" an exchange inquires, and a cynical correspondent answers: "Men choose betting as a means of stopping an argument stopped; women never want an argument stopped."

Lucretian Philosophy.
Fly no opinion because it is new, but strictly search and after careful view, reject it if false, embrace it if its true.—Lucretius.

Flowers
Our stock is fine. Sweet Peas, Carnations, Marquisettes and Snap Dragons. Let us have your order. Valentine Day is near and there is nothing more appropriate than flowers. If in doubt, make it Flowers. In potted plants we have Primroses, Cyclamens, Canamias and Joss Lilies. Roses, Lilies, Violets and all other flowers furnished to order. But we must have 24 hours to fill, counting from 12 o'clock noon of each day.

GIRL SCOUT NOTES

Staff meeting Monday evening will be next to the last in the course in second class work given by Mrs. Lawhead. Growing interest is being shown in the course and movement as a whole in Clearfield. Very important phases of this stage of the work will be discussed at these last two meetings so attendance is almost necessary.

House committee, attention! The February meeting will be on Tuesday afternoon immediately after school, 2 o'clock. There is a long list of very important Scout matters needing immediate attention to every troop must be represented.

If there are any more used pianos ready to go on the market, now is the time to break the news for by hook or crook the Scout home must have one and at a price within the range of such an organization. There has been no intention of making money calls a bar to membership so what they spend they must earn—and be helped to earn it. A piano may appear a needless extravagance but a piano is a genuine necessity.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

A social dance in the rooms of the Red Men last evening was an event that caught a goodly number of the young people who delight in passing away an hour or so in that pleasure.

The rooms occupied by Funeral Director Doverspike in the Sweeney block are being remodeled in a manner that will give more room for harboring the stock, etc. The shelving and counters will be removed entirely and some alterations made for convenience.

A report was put in circulation by some one the other day, relating that Mr. Carpenter had sold the Park hotel building. We interviewed John Fox, the present occupant of the building, as to its authenticity and he immediately informed us that he had heard nothing by which the sale could be confirmed, but that he expected to keep right on conducting that hostelry as he had been for the past two or three years.

Mrs. Olson Johnson, who has been ill at her home in George street for several months, is reported as being in a very serious condition, and that her friends have little hope for her recovery.

L. W. Spencer, one of the town's enterprising merchants, has been confined to his home on Ridge avenue for the past three days fighting a severe cold.

The ladies of the Presbyterian congregation assembled yesterday for their annual quilting bee. They put in a full day on the job, having thoughtfully taken their noon-time lunch with them.

Mrs. Cecil Bloom, of Clearfield, was up from the county seat yesterday and spent some time with friends.

A number of ladies determined to have a good time Wednesday evening without being bothered with cigar smoke and hubbly, so procuring a conveyance on runners hid themselves to Hyde City, landing in the home of Ben Post and family, where at the proper hour feasted on "weenies" and lots of other good provender. They had such a good time that time flew unforgettably until several hours after the midnight chimes had sounded, when the return home was made.

A salesman who came to Curwensville yesterday morning from DuBois, over the B. & P., is authority for the statement that a short distance above Bloor's Run a bunch of twelve deer was seen feeding not over one hundred yards from the track.

Next Sabbath will be the first day's proceedings of the reopening of the Methodist Episcopal church. The day's program will be as follows: At 11 o'clock a. m., Rev. J. H. Price, of Huntingdon, Pa., will occupy the pulpit. At 2 o'clock p. m., a women's other business, in connection with mass meeting has been arranged to their interests.

take place. Just what day will be decided upon, but it will be some day from a distance. The evening service at 7:30 p. m. will be in charge of Rev. Nelson A. Price, Burma, India. Live condition pertaining to this occasion has been looked after carefully and there will be no hitch in the carrying out the week's program whatever. The Methodist people can be heartily congratulated for the manner in which the preaching auditor has been remodeled and refurnished. It required lots of time and perseverance by those who were interested deeply in making this house of worship a pleasant place to gather on the Sabbath day. The balance of the program will be given in the Progress column daily as it occurs. Pastor Collins has spent a great deal of time in getting the church ready for this rededication, and would be more than pleased to see every member of the church, big and little, present on the opening, next Sabbath.

Dr. Byron W. King, accompanied by Rev. John Cameron, of the Baptist church, spent several hours in the High School building yesterday forenoon. He gave an hour's talk to the pupils which was highly appreciated by them.

Do not let us forget the importance that is attached to the Swarthmore Chautauqua that will be in Curwensville for three days during next week, starting the first day's program on Tuesday afternoon, February 13th, and ending with the night of the 15th. The first program to be rendered is an interesting one within itself, and will start with a series of lectures by the Chautauqua superintendent, followed by a grand musical concert by the famous Fisher-Schenk company after which the Junior Chautauqua will have its inure. The evening entertainment will commence with another musical concert by the Fisher-Schenk company, and when that is ended, William Seeling Battis will deliver his interesting and instructive lecture entitled "Life Portrayals," which alone is well worth the price of a season ticket.

C. T. Doverspike of New Bethlehem (not the alode of where the Son of Man was born however) is a guest of his brother C. E. Doverspike this town's funeral director. These two brothers resemble each other remarkably and it would be well enough for our Doverspike to keep a weather eye on the Bethlehem Doverspike in order to prove an alibi in case any pranks were played to his expense.

One of Curwensville's taxpayers recounted yesterday that he imagined that it would be an excellent idea if our two village assessors would get together ascertain what property owners had doubled the tariff on rents and then assess those properties in proportion to what revenue they bought the owners. Not such a bad suggestion after all is said and done.

The ladies of the M. E. church held a 25 cent luncheon yesterday in the west room of the church the proceeds of which will be added to the carpet funds.

Several of the leading men conprogram will be as follows: At 11 o'clock a. m., Rev. J. H. Price, of Huntingdon, Pa., will occupy the pulpit. At 2 o'clock p. m., a women's other business, in connection with mass meeting has been arranged to their interests.

Amity must be at its height among the young fry who are attending several of the departments in the stone building. The writer counted no less than half a dozen pugilistic encounters going on between Kirk's corner and the school building yesterday afternoon directly after the schools had been dismissed. Several of the fist-cuffs were real lively too, while they lasted, and in one particular case blood flowed profusely from the proboscis of one of the combatants. Oh, well, a little blood letting does not injure the growth or intelligence of a school kid a great deal so let them exercise in that direction at will.

The Loyal Order of Moose that had planned to throw their hall and several rooms open to the public one or more nights a week for the purpose of amusements such as dancing card parties or any social enjoyment that could be carried on has decided to postpone the arrangement for a time or at least until the revival meeting has closed and the several other entertainments which have been booked to take place in this town during the month have had their Irving and passed into the discard of the past. This lodge is not composed of tight wads and its members are firm believers in the theory of giving entertainment and pleasure where it is due. This lodge in a financial way has contributed a whole lot more for the benefit of people in this community than they have been given any credit for.

OBITUARY

CHILD DEAD OF DIPHTHERIA
The 14-months old child of Mr. and Mrs. Hugh Appleton died at the home of its parents in Pike township at 11 o'clock yesterday morning. Interment was made at Centre this afternoon.

FORMER GLEN RICHEY DOCTOR DIES
Dr. T. C. Twitmore, formerly located at Glen Richey, died at 4 o'clock this morning at his home in Juniata Pa., aged about 66 years. The funeral will be held Sunday leaving the home at Juniata at 12 o'clock and proceeding to Bellefonte where interment will be made.

DEATH OF DAUGHTER OF LATE W. LANSBERRY
Mrs. Dessa Della Allen, of Lock Haven, a daughter of the late William Lansberry, of Morris township Clearfield county, deceased, died Wednesday morning, February 7th, 1923, at the Lock Haven hospital, where she was admitted on Saturday, Feb. 3rd, and underwent an operation the following day for strangulated hernia. She was convalescent from an attack of pneumonia, and was still weak when it became necessary to perform the operation.

Deceased was aged about 38 years. She was a member of the M. E. church, a good woman and devoted to her home and the rearing of her seven children, who, along with the husband, survive. She has a brother

George W. Lansberry, residing in Clearfield, and a half sister and half brother, Margaret and Orville Lansberry, living at Morrisdale. Miss Margaret will attend the funeral, which will take place tomorrow.

JOHN BROTHERLIN CALLED BY DEATH

John Brotherlin, member of one of Blair county's oldest and best known families, died Thursday morning at 11:35 p. m. at Altoona hospital, death being due to pneumonia. His condition took a serious turn on Tuesday and he was removed to the hospital that afternoon.

He was born in Hollidaysburg on June 8, 1879, the son of J. Irvin and Mrs. Jennie Lemon Brotherlin. He was a nephew of the late Dr. H. H. Brotherlin.

Following his graduation at Boston he accepted a position as general superintendent of Hiram Swank's Son's fire brick operations in Ironville, with headquarters in Ironville but maintained his residence in the Mayo apartment in Altoona.

He was a thirty-second degree Mason and was a member of the First Presbyterian church of Hollidaysburg. The deceased was well known in Clearfield, where news of his death came as a sad shock to his many business and personal friends.

Gossip For Tonight's Tea Table

Mr. and Mrs. W. A. Flanagan, of Detroit, Mich., arrived in Clearfield today, called here by the serious illness of Mrs. Flanagan's father, Frank Connolly.

C. W. Sawyer, of Ansonville was a visitor in town yesterday.

Mr. and Mrs. Louis Shapiro left yesterday for Philadelphia. Mr. Shapiro will return in a few days but Mrs. Shapiro will visit her daughter, Mrs. Joseph Fyne for some time.

Harry Catchart, of Olanta, was a Clearfield visitor yesterday.

Ashley H. Wilson, of Bradford township, transacted business in town today.

Mrs. Elva Whipple, of DuBois called on friends here today.

Miss Lenetta Ibberson of Philipsburg, is the guest of Mrs. Oberdick.

Mrs. C. H. Moore entertained her bride club last evening.

Ted Wright of Johnstown, is spending several weeks at his home here.

Doctor and Mrs. Geo. W. Brett left yesterday for Altoona where they will visit Doctor Ray.

Mrs. Clark of Mahaffey, spent Thursday in town.

James W. Ruffner, of Madera, was a Clearfield visitor yesterday.

A. H. Woodward transacted business in Harrisburg on Wednesday.

Mrs. W. W. Van Allen left today for DuBois, where she will visit Mrs. Lyle Hall and attend a luncheon and bridge given by Mrs. J. E. Merris and Mrs. Hall on Saturday.

R. D. Swoope, of Curwensville, spent Thursday in town.

James Clegg, of Philadelphia, spent the day here yesterday with friends on his way to Pittsburgh.

W. O. Guhranson, of Houtzdale, was a Clearfield visitor yesterday.

C. T. Sprague has returned to Philadelphia.

Miss Grace Kline is ill with grippe at her home on Merrill street.

Mr. and Mrs. Edward P. Dutton left on Wednesday for New York, where they will spend the week end.

Thomas McClynn, of Bannan, was a business visitor to Clearfield today.

John B. McGrath, Esq., of Houtzdale, had business at the Court House today.

The English Language.

The English language is said to consist of 700,000 words, but nearly half are either obsolete or scientific, seldom used in conversation. It has been calculated that nine-tenths of our words are of Saxon origin.

True Greatness.

To be popular at home is a great achievement. The man who is loved by the cat, by the dog, by his neighbor's children and by his own wife is a great man, even if he has never been mentioned outside of the circle of those who love him.

Happiness and Unhappiness.

All happy families resemble one another; every unhappy family is unhappy in its own way.—Tolstol.

Home Made Candy

For Week-Ends

We will have plenty of that good home made candy for your week-end eating again. The peanut brittle is exceptionally good and the cocoanut brittle runs it a close second.

How many pounds did you say?

**STEWART'S
DRUG STORE**

(CLEARFIELD, PA.)

Man to Be Watched.
The man who is really good never gives one the impression that he knows he is good. The man who tells you how good he is, like the man who boasts of his honesty, may be a pretty good counterfeiter, but he certainly isn't legal tender.

Starting on the Furniture.
An authority on the fuel situation declares that we must "learn to eke out by burning oil, gas, electricity and what not." We are glad he mentioned the what not. Mary, hand us the ax.—Berton Evening Transcript.

Shake Off Self-Distrust.
Self-distrust is the cause of the most of our failures. In the assurance of strength there is strength, and they are weakest however strong who have no faith in themselves or their powers.—Burle

Impossible Happening.
"What a terrible thing it must be," said he, "for a woman to discover a love-letter in the pocket of her husband's coat just after she has mended it neatly and lovingly!" The woman smiled. "That could never happen," she said. "The woman would find the letter first—then she would not mend the coat."

He's a Philosopher.
Little George is an embryonic philosopher. He said the other day at table: "Now, when I sit in my chair my feet won't touch the floor, but when I walk around they touch the floor as well as anybody's."—Woman's Home Companion

Egyptians Wore Thimbles.
What was supposed to be the first thimble was made in the year 1084, but devices of an apparently similar pattern have been found in Egyptian ruins.

In the Majority.
The pessimist looks regretfully back, the optimist looks hopefully forward, the ordinary mortal just groans and smiles through today.—Boston Transcript

Black Satin

Here is a new variation of the uniform. Plain lines, a new sleeve and a side panel that is made of velvety—and the modern business woman starts out in the morning tired for anything that may happen.

SOMETHING NEW FOR YOUR SUNDAY DINNER

We have been going 'round the markets all week for the sole purpose of having something new for your market basket tomorrow and we feel that we have succeeded.

Always first with the new things as soon they appear on the market, we will have some new things for you that will make the folks sit up and take notice when they sit down to dinner on Sunday.

OYSTERS—
of course
THORN BROS.

PRICES ARE THE SECOND CONSIDERATION IN OUR GROCERY TRADE

Quality is First, always. You miss many good things—you don't have as much as you might—when you fail to send us your grocery order. Just for example, just now we have:

THE MORE MILK YOU DRINK THE BETTER YOU'LL FEEL

There is no question about it, the more milk you drink, the better you will feel. The grind of the everyday tasks tears down your system and if you're going to stand the grind, you'll have to put something into your system to make the repairs.

When you begin to drink more of our milk, you are putting into your system that food which contains everything that is needed for the rebuilding of what you tear down.

Then, too, the fact that our milk is pasteurized makes our milk doubly safe for you to drink, as every possible precaution is taken to have that milk pure.

Clearfield Dairy Co.

REPAIR WATCHES AND CLOCKS RIGHT

There isn't a job that goes out of this shop but what goes out with the guarantee that it is working right. It matters not what may have been wrong with the watch or clock when it was brought in here—it goes out right.

Some folks have brought us some pretty hard jobs to do but we have stuck to those hard jobs until they were working right and have had the satisfaction of knowing that we pleased a customer by the way in which the work was done.

If your watch is not keeping time as it should, bring it here.

TWO BIG COAL MINE TRUCE ARRANGED BY INTEREST RUNNING DISASTERS TAKE HUNDREDS LIVES COMMANDERS IN SMYRNA HARBOR HIGH IN CONTEST HERE TONIGHT

Explosions at Dawson, N. M. and Vancouver at About the Same Moment Are Serious.

190 MEN ENTOMBED

Two great mine disasters at almost the same moment late yesterday afternoon bid fair to increase the already high mortality in the mining industry.

Yesterday afternoon about 2:30 o'clock the Denver, Colorado, office of the Phelps-Dodge Company received a message from Dawson, New Mexico telling them that Mine No. 1 blew up, but no further details could be had until late last night.

At the same moment the Cumberland Mine on Vancouver Island, British Columbia, blew up as a result of fire damp.

Just what the death toll will depend on what later dispatches have to tell as both mines are located in out-of-the-way corners having little or no facilities for rapid news transmission.

The first dispatches were received from the Dawson disaster where it is now certain that one hundred and twenty-two men were entombed. At an early hour this morning only four bodies had been recovered and these were in the main travelling ways and not at the working face.

According to best information the main entrance to the mine is of concrete and it was this that caved in as a result of an explosion. The 118 entombed men were at least a mile away from the point of the cave-in and nothing could be ascertained as to their fate. The only hope is that they have been able to throw up a wall that would protect them from the deadly poisons in the air.

At noon today six bodies had been recovered from the Dawson mine and rescue parties reported that they had penetrated deeply into the workings and discovered large numbers of dead miners. It is feared that all entombed will be lost.

The latest reports from the Vancouver mine is hardly less encouraging. Late reports show 28 bodies removed and at least seventeen more in the shut off workings with practically no hope for them.

Vancouver, B. C. Feb. 9.—Twenty-eight bodies have been removed from the Cumberland mine and seventeen others are now entombed. Of the bodies recovered, twenty were white and the eight were orientals. Forty are now known to have lost their lives and the death list is not expected to exceed 45.

DEBT BILL HITS A SNAG; LA FOLLETTE AND LODGE BALK

Washington, D. C., Feb. 9.—The House early today took up the Debt Refunding bill with indications that it would pass tonight or early tomorrow. In the Senate, however, the administration plan struck a snag with Senators La Follette and Lodge demanding a full hearing before the Senate Finance Committee and the hearing will be held tomorrow. Secretary Mellon has been summoned to appear before the committee with all the details of the plan.

WILL PREACH HERE SUNDAY

Rev. Bertram H. Conley, of Curwensville, will preach in the Presbyterian church Sunday morning at 10:30.

Although Angora Agent Notifies Allies That Ultimatum Cannot Be Revoked In Entirety.

SITUATION TENSE

Reports from the Near East situation are rather conflicting today. An early report declared that Adnan Bey, Turkish representative of the Angora government had notified the Allies that it would be impossible to revoke the ultimatum giving the Allies a short space of time in which to entirely evacuate the Smyrna harbor.

A later report says that the Turkish Commander at Smyrna and the Allied Commanders have come to an agreement whereby a "status quo" is to be maintained pending an opinion as to the right of Turkey to issue an ultimatum regarding the Smyrna harbor.

While there is little fear that the Turks will put their ultimatum into effect it is recognized that the situation is in itself a bomb as the Smyrna harbor is mined against attack and should any vessel attempt to leave there is liable to be a disaster which would have world wide significance and import.

Smyrna, Feb. 9.—It is believed here that the only American vessel in the Smyrna harbor is a small American destroyer of less than 100,000 tonnage which will not come within the terms of the Angora ultimatum.

MRS. PHILLIPS IS IN PENITENTIARY AT CHIHUAHUA

Houston, Texas, Feb. 9.—Mrs. Clara Phillips, the hammer murderess, is in the state penitentiary at Chihuahua, according to Lee Manning, Federal immigration officer, who returned from Alguin, the bandit, to America today. As soon as Manning returns Alguin to the authorities who want him, he will return to Chihuahua and arrange for the return of Mrs. Phillips to America.

FIND YOUNG COUPLE FROZEN TO DEATH IN A CLOSED CAR

Pewesauri, Mass., Feb. 9.—The frozen bodies of Miss Nellie Kleme aged 19 and Arthur Boysvert, aged 25, were found today in a closed car belonging to the young man on a lonely road in the mountains near here. The girl was sitting upright in the tonneau, her arm resting on the door, but the young man was crumpled in a heap on the floor. It is believed that the couple were overcome by the fumes of carbon-monoxide gas which generated through some defect in the engine.

Misses Bertha and Olive Renaud and Miss Marie Flanagan, all of Keewardin, are spending the week-end in Clearfield.

MASKED BAND VISITS OUTRAGES ON YOUNG GIRL WHO LEFT HER CHURCH; CUT TEN CROSSES UPON HER BODY

Chicago, Ill., Feb. 9.—Ten crosses were carved on the body of Mildred Erig, a young girl, by a band of masked men who carried her to a lonely road, then left her unconscious, according to a statement made to the police by the girl. According to her story the men seized her as she walked along the road, rushed her to a secluded spot and there wickedly

Old Rivals Will Face Each Other In Crucial Battle Which Will Decide Pennant Race.

BOTH ARE HOPEFUL

By DICK LEIPOLD

This evening the high school gym will be the scene of one of the most important basketball contests that the local school has engaged in since the Brookville game here in 1920. It will be remembered that Clearfield and Brookville were tied for high honors that year and that the Jefferson contains arrived in Clearfield on a special train, three hundred strong and, headed by a brass band paraded from the station to the court house square. Over a thousand people witnessed the wonderful game, in which the locals came from behind and won their way to a championship in one of the greatest games ever staged here.

Great Game in Store For Feb.

Everything points that the clash this evening between two ancient rivals such as Clearfield and DuBois will bring out some of the best basketball seen in the county seat in years, as the two teams are rated by the sport experts as about equal in all around strength, despite the fact that Clearfield's only defeat of the season was at the hands of DuBois, a month ago in the opening league game.

Since that game the league records of the two Clearfield county squads have been the talk of the cage circuit, with the locals having a slight edge in the dope, as C. H. S. won the following four games, two at home and two abroad, while DuBois, playing equal number, dropped a contest to Punksutawney at Punks. And so, at the start of the second half of the league schedule, Clearfield High's passers who were thoroughly trounced in the first game, by hard consistent playing, find themselves deadlocked for top honors with the third class city tossers in the pennant race.

Championship May Be Decided

Altho it does not necessarily mean that the winner of this evening's contest will clinch the championship cup it does mean that the losing team cannot slip another notch, and still hope to have the slightest chance to remain in the running. The winner this evening will have a one game margin, and a defeat later will just mean another tie, if the other leaders continue to win. Brookville, altho twice defeated, is still "very much" in the race. They should defeat Reynoldsville this evening and will be tie for second place in the league standing.

Entire Squad Subject to Call

Coach Reed has been giving his peerless scrubs unusual attention during the past week and when in fact the second string team, played the Varsity men close in every scrimmage. Hody Johnson, star forward, will be paired off with one of the Barney brothers or Wilson, while

(Continued on Page 2).

SEVERELY CRITICIZES PRESIDENT OF U. M. W. OF A. AND EDITOR SEARLES IN FILING REPORT OF COMMITTEE

Tells Lewis He Will Lose His Office Unless He Takes Leadership and Makes Brophy Plan a Part of the Policy of the U. M. W. of A.

IS THE BEGINNING OF FIGHT FOR POWER

In a letter notifying President John L. Lewis of the U. M. W. of A. that he has completed his job as chairman of the National Research Committee of the United Mine Workers, President Brophy of District No. 2 says he has done a good job, formulated a plan in which there can be found no fault and calls for a united front and a spirited advance.

In plain English he puts the matter up to Mr. Lewis in an inquiring, "Will you as leader give us the lead?" There is a strong hint of criticism against Mr. Lewis running throughout the letter. He asks many questions in an effort, apparently, to smoke out Mr. Lewis and get an endorsement of his plan.

In exceptionally strong terms he arraigns the editor of the United Mine Worker's Journal, Mr. Ellis Searles, for refusing to give space to the committee and its work, and calls upon Mr. Lewis to throw open the columns of that organ to the principle of nationalization.

Mr. Brophy very kindly gave us a copy of his letter to Mr. Lewis and we re-print it entire believing that it may be the beginning of a rifle which may finally roll up to be a tidal wave.

Following is the letter:

Clearfield, Pa.,
February 5th, 1923
Mr. John L. Lewis, President,
United Mine Workers of America,
Indianapolis, Ind.

Dear Sir and Brother:

I submit my resignation as Chairman of the Nationalization Research Committee of the United Mine Workers of America. We have done our job. We have drawn up a concrete plan for nationalizing coal.

Recent events have made plain to you and me as to every other miner that Nationalization is the master current of the United Mine Workers of America. The tide gathers volume and will sweep irresistibly into the next International Miners' Convention in January, 1924. Who is the King? Canute that will sit on the beach and tell the tide to quit rising? It will splash him and float away his chair of office. The miners are feeling the power of an idea, and they see the driving force of a detailed plan.

The International Miners' Convention of 1921, and you, as President, outlined the duties of our Committee. You bade us familiarize ourselves with the problem by "consulting with authorities"; you asked us to formulate a "detailed practical policy to bring about the nationalization of the coal mines." And you ordered us to "aid in the dissemination of information among our members and the public."

We could not better your instructions, because they are all inclusive. But fulfilled them with results that surpassed our hopes. We consulted miners, labor men in other industries, economists, statisticians, Government officials, every type of expert opinion.

In accordance with your order we drew up the plan as the result of this prolonged investigation. The only other ways of making the Plan would have been to let it drop into our mind as a perfect abstraction from a time-less world, or else to turn over the job to some group of professional liberals and let them project a theory. We did neither. We preferred the method of hard work and expert advice. We have presented the American Plan for nationalizing coal in a pamphlet "How to Run Coal" in which every detail is hammered home, and the full union strength and bargaining

(Continued on Page 4).

CONFESSES MURDER FOR WHICH NEGRO SUFFERED LYNCHING

Waco, Texas, Feb. 9.—Wier Mitchell, a mulatto, aged 25, has confessed to the Sheriff here to five murders committed within the last two years during a reign of terror which has baffled the police and all county and local authorities.

The tragedy of the confession is that Mitchell confesses to the guilt of at least one murder for which another negro was burned at the stake by an irate mob, something over a year ago.

The sheriff says that the man gave no motive for his wholesale murdering.

One Third Of Entire Force Of Dry Agents Now On Eastern Coast

Washington, D. C., Feb. 9.—One-third of all the Federal prohibition enforcement officers are now concentrated on the middle Atlantic coast and prepared for a final clean-up campaign. The Prohibition Bureau has sent 111 of its 330 agents into Pennsylvania, New Jersey, Delaware and Maryland.

KING LECTURE GREATLY ENJOYED

The lecture by Dr. Byron W. King of Pittsburgh on "The Uplifted Christ" at St. John's Lutheran church last evening was really an educational as well as a religious event of the season. That Dr. King and his ability are both well known to the people of Clearfield was attested by the splendid audience which greeted him, it being necessary to throw open the Sunday school room in addition to the main auditorium of the church to accommodate the crowd. Beginning with a wonderful interpretation of the Twenty-Third Psalm and closing with a powerful portrayal of the wonderful God of Love as demonstrated in John 3:16 he moved his hearers from tears to smiles at his will. To have heard him was to have gone out with a brighter view of the world today however and we venture the opinion that there will be a demand to hear this noted orator again in the not far distant future. He came to Clearfield under the auspices of the Women's Missionary Society of the Lutheran church and the proceeds of the silver offering will go toward the Laura E. Gilliland Nursery at the mission station in Africa which this congregation is erecting.

CARD OF THANKS

Mrs. A. Couwick and Mrs. D. D. Guppy desire to thank all those persons who presented them with coupons in the Workman's Store contest which resulted in the securing of the sewing machine for the Children's Home.

Mr. and Mrs. Samuel Warner of South Second street left this morning for Akron, O., called there by the death of Mrs. Warner's mother.

Mr. and Mrs. Bert Miller and Mrs. D. V. Smith of Williamsport, Md., visited their niece Mrs. Walter Folling yesterday.

COUNTY LIBRARY IS SPEAKER'S SUBJECT OF GREAT INTEREST

W. C. Pentz, Esq., One of Committee Appointed by Grange, Makes An Exposition of Plan.

DR. KING SPEAKS

Clearfield Rotarians and their guests had the privilege of listening to two highly interesting addresses at the regular meeting of the club held in the Hotel Jordan last evening. Secretary Howard Stewart presided at the meeting by courtesy of President Albert Bigler, and made a highly successful job of it.

Several announcements of interest to the club were made by President Bigler and the "On To Frederick" committee were advised that thirty-six persons had already decided to accompany the Clearfield delegation to the District Convention at Frederick, Md., March 15 and 16.

At the conclusion of the regular business Attorney W. C. Pentz, of DuBois, was introduced and in a highly interesting thirty minute address advanced the idea of a "County Public Library" for Clearfield county.

Mr. Pentz, who is one of the originators and strongest supporters of the public library in DuBois, was full of his subject and presented an unanswerable argument in favor of a library as a county proposition or asset. He took a leaf from their experiences in DuBois and told many interesting things concerning the growth and development of the idea in the third class city.

The library scheme provides for the location of the library proper in Clearfield, as the central point, but every school house, Grange hall or church in each community could be made a subsidiary or branch, where books could be kept and supplied to readers in the community. The advantage of the plan has already been seen by the Grange of the county, which, at its meeting in Kylertown a few months ago, adopted resolutions favoring the establishment of a county library and appointed a committee of three, of which Mr. Pentz is one, to further or develop the movement throughout the county.

The speaker said that in pursuance to that commission this committee had been earnestly at work and as a result thereof a resolution favoring the plan was adopted at the recent County School Directors' Convention, while the teachers, the preachers and other leaders of thought throughout the county had been circled and asked to assist in forwarding the movement by educating their people to support of the proposition to the end that the idea will receive general support.

In stressing the need for a public library Mr. Pentz said its great need was to safeguard our American institutions.

"DAVEY" KRANTZ, CONVICTED PRISONER OF BOOTLEGGING WITHIN A YEAR, IS PAROLED AFTER SERVING 3 MONTHS

"Lucky Antone" had nothing on David Krantz, the DuBois bootlegger convicted of violating the liquor law in one year and now able to tell the tale of his experiences on the outside of the Clearfield county jail.

Early in the year 1922 or maybe in the latter reaches of 1921 Krantz was convicted of violating the liquor law by selling a quart of whiskey to Officer Gearhart of DuBois. He was fined \$50 and given ten days in jail, which sentence he served.

In June last Chief of Police Clark and Constable Korb of Curwensville found Davy in their town with a truck load of hooch. The truck and hooch were seized by the officers but Davy managed to "fade away." He remained away until last November, when he came into court and entered a plea of guilty of violating the liquor law again. For this crime he was

GRAND JURY PROBE IS GOING ON TODAY BEHIND THE DOOR

Many Witnesses Called and Visit to the Jail Made This Afternoon Report to Be Printed

PRISONERS CALLED

The investigation of conditions in the Clearfield county jail by the Grand Jury was begun by the august body at 9 o'clock this morning as per announced schedule. This investigation which grows out of certain statements made by Rev. Richard Allen Hatch of St. Andrew's Episcopal church at a recent meeting of the Clearfield Rotary Club, was arranged for by Judge Bell, who announced at the meeting following the statements made in his address that Rev. Hatch would be subpoenaed to appear before the Grand Jury.

On account of the nature of the investigation and its concern to the public many people were of the opinion that the hearing should be a public one in the court room. Judge Bell, in an address to the Grand Jury previous to their beginning their hearing in the jurors' room, said that he had made a decision on this point. The Grand Jury, therefore, in effect at least, effected the investigation was made the private concern of those of the public generally and left it up to the newspapers to give out what information they could gather from the scene of the investigation, the testimony given, etc., also feeling that they could pick out and write into their reports such matters testified to as would be of interest to the public.

Judge Bell made a lengthy address to the Grand Jury in which he outlined the events leading up to the investigation. He discussed the charges against it at length and told the jury that under the law the County Commissioners as a Board were in full and complete charge of the jail and responsible for its condition and management.

Judge Bell also informed the Grand Jury that no propaganda for a new jail should be countenanced at this time, that there was no need or occasion for a new jail, and that legislation would undoubtedly result in making county jails merely detaining houses.

In commenting on Rev. Hatch's charges Judge Bell said that the County Commissioners had reported a lot of the defects complained of about Rev. Hatch had been emphasized, but that this should not have been done while the investigation was pending.

At the conclusion of Judge Bell's remarks the Grand Jury retired to their rooms and took up their hearing. The first witness summoned was Rev. Richard Allen Hatch of St. Andrew's Episcopal church. Rev. Hatch was on the witness stand for almost an hour.

"DAVEY" KRANTZ, CONVICTED PRISONER OF BOOTLEGGING WITHIN A YEAR, IS PAROLED AFTER SERVING 3 MONTHS

sentenced to pay a fine of \$100 and costs and undergo imprisonment in the county jail for a period of three months.

A parole was granted Davy Thursday by Judge Bell and he was released from further jail sentence conditioned on his good behavior and agreeing to make his place of residence somewhere outside of Clearfield county when asked to do so by the Court and District Attorney. Davy is also required to report the general state of his behavior, etc., to Henry Klewans, of DuBois, every week. The parole states that it was granted on account of the state of health of the prisoner's mother, who is now by Dr. Jordan of DuBois, to be "worried so over her son's imprisonment that she is almost crazy." A statement was submitted to by Davenport and Dr. Free.

By Stanley

Continued from Page One

"Nick" Brown will start at center with Boyce and Moore in reserve with "Swale" Johnson, Pierce and Mitchell while Captain Brown may be in the game at center or forward for a hot time. It is feared that his leg will hurt and not stand up very long. A lot of such a thing is possible. It is a good thing to know and to be ready for. The game will be opened at 7:30 p. m.

Continued from Page One

Doors to Open at 7 30
In order to do away with the "calpers" who buy up as many tickets as possible no pre game sale of tickets was allowed by the local management. Tonight promptly at 7 30 o'clock the doors will open for the sale of tickets. Students will be taken care of at the West Entrance and townspeople at the regular door. Every one will be asked to stand in order to try and take care

of the special train patrons from DuBois.

"I was without aving that there are going to be a lot of people not get in to see the train. The towns people, by reason of the door arrangement, are given some advantage but big advantage depends on their being there before seven thirty, so as to get in the line. The DuBois train will be in about that time so the early bird will get the worm. Nuff said."

in here. He was followed by Arthur W. A. Huggins, for which ex-Jail Attorney O. Smith was called to testify to jail conditions. A. Huggins understood them. During his reign as County Commissioner, W. A. Huggins was called to jail a Deaf Governor gave one testimonial. A. Huggins told of My Guy, a convicted criminal, a journeyman for a while.

"Tunk" Edwards and George W. Spangle from the jail, Clasc & Sackett, the plumbers who made the recent repairs and F. R. Waple, of Lutzinger Bros., who placed new bed lining in the jail all testified.

Following the hearing of the testimony the Grand Jury visited the jail to look things over for themselves and their report, which will be a very lengthy one, will be prepared and presented to the Court tomorrow. We understand it will contain the complete stories of Ray Hatch, Judge Smith and possibly one of the other witnesses.

The island of Corsica is in the Mediterranean sea 70 miles from the coast of France and 8 miles from Sardinia. This thousand three hundred and eighty six square miles it belongs to France.

This community has never been supplied with an up-to-date Paint Shop for refinishing automobiles.

I have just erected and fitted up a new shop with all the latest equipment. Am safe in saying there is no other shop in this territory that would surpass it in any way.

The cars will be cleaned with high steam pressure, which removes all mud, grease, tar and other foreign substances before the paint is applied. The latest improved air brushes have been installed, also an air-tight finishing room with a temperature that bakes the finish and makes your car look like new.

Will be open for business Monday, February 12th.
Located on Smith Street, near Ogden's Garage.

William McCormick.

"Yes, Mabel, I have been buying my toilet accessories at Bloom's for a long time simply because they have everything right there that I need and keep right up to date." Cecil R. Bloom, Pharmacist, South Second Street, Clearfield.

ODDS AND ENDS
AND THINGS

By J. D. C.

The Gulf Stream, which has long been charged with controlling weather changes has given use to many interesting observations as to what might happen in case this wonderful body of water would change its course. Recently an inquiry was directed to (Arrest P. Serviss, the eminent New York scientist, in which he was asked for an article on the Gulf Stream. Here is his reply:—

You probably know how the "hot-water system" of house-warming acts, and perhaps you know why it heats the house. In that case you have already in mind the elements of the answer to your question.

The Gulf Stream is a kind of hot-water system for distributing heat in the Atlantic Ocean. Some of the bordering lands of that ocean, like the rooms in the house that are not furnished with radiators, get the benefit of the heated currents passing near their shores, and warming the air that flows over them.

As to the details of that relationship meteorologists, geographers, mariners and physicists are not in accord, but I think that none of them would deny that the Gulf Stream plays a large part in the general climatic conditions of the North Atlantic Ocean and its adjacent continents.

Child of Trade Winds.

The Gulf Stream, which Lieutenant Maury, in his great book about it, called "a river in the ocean," pours out of the Gulf of Mexico (which gives it its name), between the peninsula of Florida on one side and Cuba and the Bahama Islands on the other. But it has its birth in the midst of the Atlantic Ocean, west of Africa and between the tropic of Cancer and the Equator. It is a child of the north-east trade winds, which flow constantly toward the American shore from the direction of the Canary and the Cape de Verde Islands.

The wind sets in motion a broad, shallow film of water on the ocean surface, and this, when it encounters the sloping northeast shoulder of South America, trends northward and passes through the sieve of the Lesser Antilles Islands into the Caribbean Sea. Being constantly driven on from the east, and gaining in depth as its area becomes restricted, it is driven through the Yucatan Channel into the Gulf of Mexico.

Here the wind-driven water accumulates to such an amount that it raises the level of the Gulf at a maximum 8 feet above that of the ocean. The Gulf forms a cul de sac for the invad-

ing water, from which, since it cannot go backward, it seeks escape by the sole practicable way, viz. the opening toward the east offered by the strait, or channel, of Florida.

Immediately after pressing through the narrow strait, where it becomes, on account of the great volume of water accumulated in it, a veritable river fifty miles' broad, and 1,000 feet deep, sweeping the rocky bottom of the strait clear of sand and mud, it encounters the Bahama Islands, and turns north-eastward, following the trend of the American coast. Its surface temperature is above 80 degrees, but this declines toward the bottom.

New England's Cold Coast.

On issuing into the ocean it is met by the so-called "cold wall," a body of cool water lying along the coast and derived from the cold Labrador current which comes down between Greenland and North America, and crowds it in toward the New England coast, forcing the Gulf Stream off toward the east. The "cold wall" no doubt plays an important part in the production of New England's bitter weather in the early spring.

Now, to return to the figure of the hot water heater, the reason why the Gulf Stream is so effective in warming lands that lie near its course is simply that water has a remarkably high heat capacity.

It is four times that of air, and five times that of earth. It carries its accumulated heat derived from the tropical sun for a long time and to great distances, giving it out gradually to the air. Many Atlantic voyagers are familiar with the oppressive atmospheric heat encountered in crossing the Gulf Stream region in Summer time. It is like the air of a close room containing a radiator full of hot water.

Stevenson's Warning.

A day or two after his death the writing was found on the desk of Robert Louis Stevenson: "Now take warning by me. I am set up by a beneficent Providence at the corner of the road, to warn you to flee from the behemoth that is to follow. So remember to keep well; and remember rather anything than not to keep well; and again I say rather anything than not to keep well."

English Women Weather Prophets.

Three young women employed at the Meteorological Office in London claim to be the only women weather-clocks in Great Britain. All three are university graduates and fully qualified by practical experience to deal with all the problems of forecasting and compilation necessary in the preparation of the daily weather reports and prognoses.

Afternoon Gowns—1923 Models

Two new spring gowns are shown in the sketch. One has the wide sleeve that wrinkles down into a tight wide cuff. Its cape-like blouse makes it ideal for spring wear without a wrap. The other frock has a new cuff, too, made of full ruffles that cover the hand. The wide-flounced skirt and yoke are other features of spring styles.

A FEW REASONS why you should have

NUMETAL WEATHER STRIPS

on your doors and windows

They will keep out the dust, cold and rain, and eliminate dusty window sills.

They will save time and labor for the housewife and reduce your fuel bills.

Numetal Weather Strips can be installed at a small cost and in a short time without removing the windows from the frame. Consequently no damage will be done to your paint and enamel.

We are dealers in this territory for these wonderful Weather Strips. We have models of windows and doors equipped with them and will be pleased to demonstrate them to you.

E. M. FULLINGTON'S SONS

BOYS, THIS IS GREAT SKEE-SKATE WEATHER

HAIR STAYS COMBED.
GLOSSY, WELL-COMBED.
The best coming cream for men only.
F. W. Gents a Jar at any Drug Store

Even stubborn, unruly or shampooed hair stays combed all day in any style you like. "Hair Groom" is a dignified conditioning cream which gives that natural gloss and well-groomed effect to your hair—that final touch to good dress both in business and on social occasions.
Millions use "Hair Groom" because it does not harm the hair. It is absorbed by the scalp, therefore the hair remains so soft and pliable and so natural that no one can possibly tell you used it. Not sticky or smelly.

FEW FOLKS HAVE
GRAY HAIR NOW

Druggist Says Ladies Are Using
Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.
Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Weyth's Sage and Sulphur Compound" which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Weyth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

RELIEVES CONSTIPATION
Kellogg's BRAN
READY TO EAT
THE ORIGINAL NUTRITIVE CEREAL
W. K. Kellogg
KELLOGG COMPANY
BATTLE CREEK, MICH. AND TORONTO, CAN.

KELLOGG'S BRAN
is a blessing to humanity.
It relieves Constipation
because it is ALL BRAN!

Kellogg's Bran every day is permanently relieving thousands of constipation sufferers throughout the world. No other food in history has done so much to give back health to men, women and children. IT IS SCIENTIFICALLY PREPARED TO HELP SUFFERING HUMANITY AND IT WILL DO THAT AS NO OTHER FOOD CAN! Physicians universally are endorsing Kellogg's Bran because it acts naturally and positively, and because it frees sufferers from the habit-dangers of drastic cathartics.

Kellogg's Bran has won national recommendation because it is so delicious aside from its regulatory value. Do not confuse Kellogg's with common bran which are unpalatable and hard to swallow. You will relish the nut-like flavor of Kellogg's Bran; it adds greatly to the enjoyment of hot or cold cereals!

Eat Kellogg's as a cereal or sprinkle it over your favorite hot or cold cereal. Another popular way to serve it is to cook it with hot cereals. In preparation, add two tablespoonfuls of bran for each person when the cereal is cooked. You'll like it with hot milk! Kellogg's Bran makes wonderful cookies, raisin bread, pancakes, etc. Recipes on every package.

To win permanent relief it is only necessary to eat Kellogg's Bran regularly and to be certain to eat at least two tablespoonfuls each day; in chronic cases, with each meal.

The relief Kellogg's Bran gives, as a natural bowel agent, is wonderful. Without the slightest distress it sweeps, cleans and purifies, ridding the system of toxic poisons and warding off some of the most terrifying diseases to which human beings are heir.

Don't delay this natural relief; give your family the benefit of this message of health—this great blessing to humanity! Kellogg's Bran is served in individual packages by leading hotels and clubs. Ask for it at your restaurant. All grocers.

Kellogg's
the original BRAN—ready to eat

SEVERELY CRITICIZES PRESIDENT

(Continued From Page One.)

power of the United Mine Workers of America are maintained and safeguarded for all time. Your Committee challenges critics of the plan to point out a weak place. The only possible opponents of the plan are those who are opposed to the principle of Nationalization. All such opposition we desire to locate and to face open. We offer the American plan for Nationalization as the only adequate solution for the present crisis of coal. We submit that in it we have met your conception of our duties.

As to the disseminating information among our members and the public, we have obeyed your orders. The Miners' American Plan for Nationalization has been published in newspapers throughout the country. Editorial comment is almost universal. Every prominent union official is being flooded with inquiries.

The time has come for a united front and a spirited advance.

Will you as leader give us the lead?

Will you throw open the Mine Workers' Journal to our plan?

The newspapers of the country are willing to devote columns to our findings, but our own official organ refuses to carry a paragraph. The editor, Ellis Searles, attempts to discredit our efforts by filing a "Red" herring. Our plan was "in part prepared for the Committee by some well known New York radicals." They would be the last to gain connection with the matter under discussion, because the facts reveal their innocence. To permit our organizations to butt into labor is the destruction of trade unionism. The methods of the Nationalization Research Committee, in preparing a case, have been the same as our own methods—no recognition of outside organizations in union affairs, consultation with individual experts in details, a trade union decision on policy.

Will you mail copies of the American Plan to the 600,000 union miners? If the plan does not embody their aspirations in concrete form this will kill it. Replies we have received from miners in every coal district of the United States show that the plan is the answer to their unrest and the rallying point for the larger policy of the union.

Will you urge upon the officials of the twenty-six districts of the United Mine Workers of America a powerful intensive campaign of education, district by district, in support of Nationalization?

Will you appear before the Coal Industry Fact Finding Commission in support of the Miners' Nationalization Plan?

Will you take the platform in behalf of Nationalization in miners' meetings and public meetings, during these next crucial eleven months?

Will you aid in drawing up a bill for Nationalization, to be presented

at the next International Convention?

We can promise you support from the rank and file, and an overwhelmingly favorable vote.

These are six important next steps in the Miners' Program.

The coal operators are discredited and defeated in the Court of Public Opinion.

The public is disgusted by the development, mismanagement and waste of the coal industry, and is ready for a large-scale solution.

The Miners are determined.

The movement waits on you. But it will not wait long for any leader. It will create its own leaders.

Hampered by the silence of the Mine Workers' Journal, and by the lack of hearty official support, our Nationalization Research Committee hereby appeals directly to the rank and file. We have done the work you ordered, but we have not received the support you promised. We shall continue to carry on the work outlined in the American Plan. We shall demand speeding up the campaign for Nationalization in the ways specified in this letter. We enter the last stages of this fight, which will end victoriously in the International Convention, not as a Committee, but as miners representing the rank and file.

So I submit my resignation as Chairman of the Nationalization Research Committee. And I urge you as International President, to aid the miners in their American Plan.

Fraternally yours,

JOHN BROPHY,

President District No. 2,

United Mine Workers of America

at the next International Convention?

Not Able to Function.

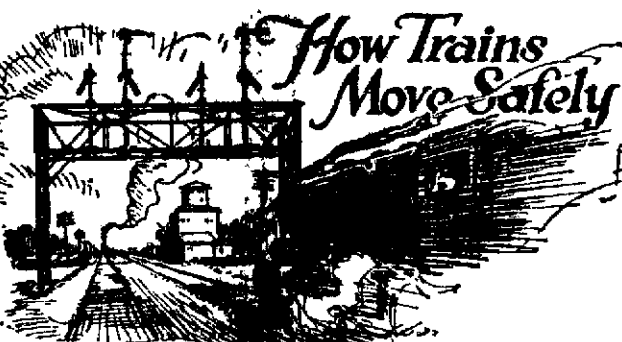

Chivalry may not be dead, but there are times—in elevators, railway cars and other places of public resort—when it appears to be in a comatose condition.

Quadruplets Rare.

Quadruplets are twenty times as rare as triplets and more than 2,000 times as rare as twins. Roughly the proportion is one set of quadruplets to 250,000 births.

Stray Bits of Wisdom.

Every day is a gift I receive from heaven; let us enjoy today that which it bestows on me. It belongs not more to the young than to me and tomorrow belongs to no one. —Munroe.

(National Crop Improvement Service.)

ONE of the principal complaints against railroad service, especially in the West, is that the rates are so high that farm profits are absorbed.

Farmers are asking that rates be reduced on grain and agricultural products to the pre-war level.

There have been many remedies suggested, but the one by A. R. Fugina, signal engineer of the L. & N. R. R., seems to be one of the most sensible. He claims that it is possible and practical to operate trains by signals instead of written orders.

"With a properly blocked signal system, the signals to govern train movements into and out of sidings, may be moved safely on

single tracks without written orders and with but few train rules," says Mr. Fugina. "Perhaps the best example of this method is that in use on the Erie between Port Jervis, N. Y., and Chicago, a distance of about nine hundred miles. There is a telephone provided at each signal point, and instead of train orders, the movement of the train are directed by the signals and in case of any doubt, the train rule is to stop on main track and consult dispatcher on the telephone.

"The speeding up of trains is probably even more important than the addition of more power and rolling stock at present. The prompt loading to capacity and unloading of cars alone would greatly relieve the congestion if universal."

It Can't Be Done.

Because one has seen a hundred of the greatest celebrities and great doings of life he should not belittle them and discourage those who have seen but few, anyway, he can't.

First Study, Then Achieve.

Try thyself unwearied till thou findest the highest thing thou art capable of doing, faculties and outward circumstances being duly considered; and then do it.—J. Stuart Mill

Realistic.

In a school essay a child wrote that a thrush said, "Mrs. Hewitt, Mrs. Hewitt" so often and so clearly in their village that at last Mrs. Hewitt came to her door and said "Yes?"

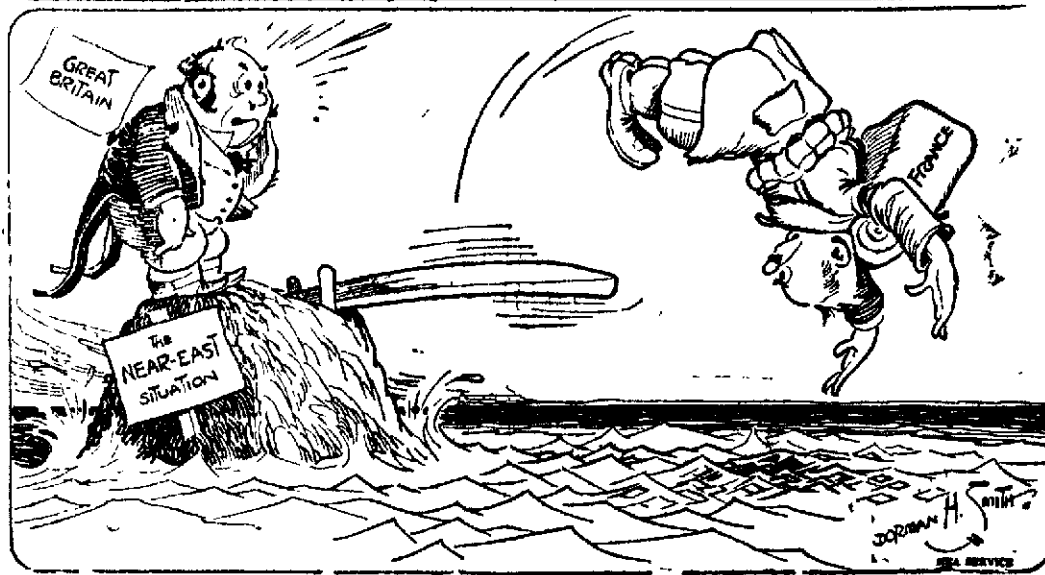

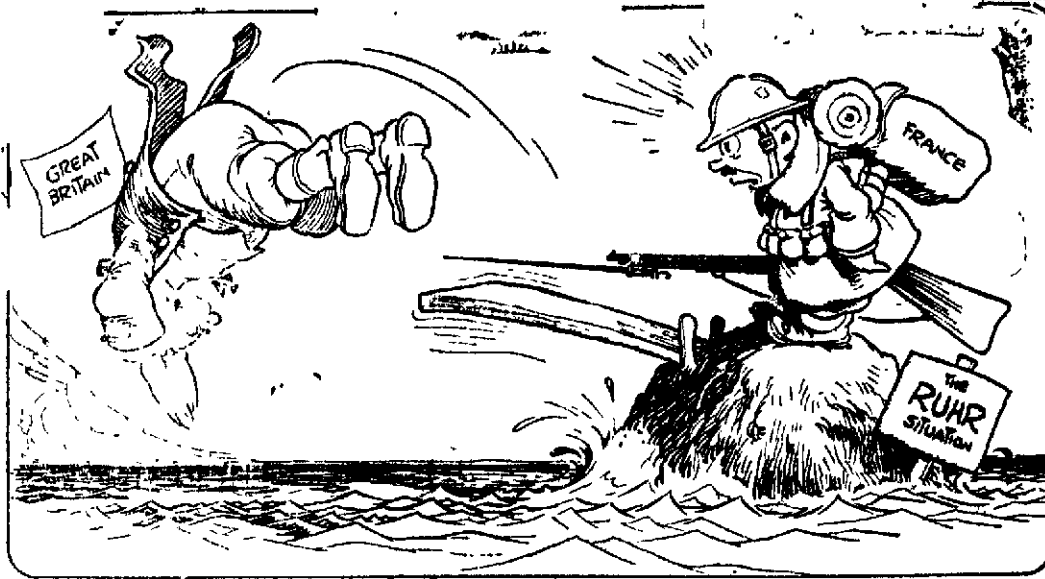

Biblical Book Titles.

The Bible has provided numerous titles for novels. Instances are: "A Fountain Sealed," by Sir Walter Beant, "Whoever Shall Offend," by Marion Crawford, "Mam's Inventions," by Rudyard Kipling and many others.

TIT FOR TAT!

Gifts and Giving.

We are our best when we try to be it not for ourselves alone, but for our brethren; and we take God's gifts most completely when we realize that He sends them to us for the benefit of other men who stand beyond us needing them.—Phillips Brooks.

The Fly in the Ointment.

No matter how famous a man may become in art, the professions or in business in after years, there will be some in the old home town who will remember him chiefly for the part he played in an amateur show.

For results try a Want Ad

Their Time Regulated.

Mab had visited a railroad town where a great number of people regulated their activities by the whistle blown at the roundhouse. On returning home she described it to her mother as follows: "They are whistled to work in the morning, they're whistled to their dinner, and they're whistled to stop in the afternoon."

Sagacity of Wild Creatures.

Wild animals know where to find protection, says the Department of Agriculture. In places where there are game sanctuaries, wild creatures hasten to them at the beginning of every open hunting season.

Japanese Proverb.
At ten years a wonder child; at sixteen a talented youth; at twenty—a common man.

Rub Rheumatic Pain, Soreness, Stiffness

Rub Pain right out with special trial bottle of old "St. Jacobs Oil."

What's Rheumatism? Pain only. Stop drugging! Not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" directly upon the "tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism and sciatica liniment, which never disappoints and cannot burn the skin.

Limber up! Quit complaining! Get a small trial bottle from your druggist, and in just a moment you'll be free from rheumatic and sciatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. Old, honest "St. Jacobs Oil" has relieved millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains and swellings.

EVERYTHING FOR OFFICE EFFICIENCY

The greater the efficiency of your office the more work can be done in a given time and by the same force. Investing in efficiency equipment for your office is one of the best investments you could possibly make, inasmuch as you cut down that great bug-a-boo, "overhead." We have everything here that will go for the proper running of your office with the least possible force, which you will admit is the height of economy.

"Drop in and talk it over some time. We have been equipping offices in this city for a long time and possibly we can be of aid to you.

Enjoy a modern bath room, fully equipped; put a sanitary sink in the kitchen to lighten the housewife's labors; install a pair of laundry tubs in the basement.

Modern plumbing is the greatest of all modern conveniences. Ask us about it.

Tom Sims SAYS---

The first sign of spring will be the funny new soft drink names. Raising a family is an expensive hobby but usually worth the money. Europe seems to think peace will take French leave.

The man of the hour seldom lasts longer than that.

A Montreal man can lift 503 pounds. That is two kegs or nine cases.

Isn't it strange that golf is a Scotch game and so expensive?

The man who tells a girl he would die for her wouldn't be so rash if he had ever tried it.

Our kick against the future is it moves as fast as we do.

People who worry about everything usually worry about nothing.

A man can be pretty smart, but never both smart and pretty.

Nice thing about having a family is you can ask the judge to pity them when you get arrested.

Moving all the seasons up three months would satisfy everybody.

Longer winter lasts the longer it will be before we have to try to open street car windows.

Reader asks if the boy seeing with a transplanted pig eye is liable to get a sty in it. No.

"Dress to suit your personality," says M. Sourine. But wouldn't that make the girls with no personality too popular?

All of us wonder where on earth our money goes.

State Constitutions.

State constitutions reveal the constancy in the development of American political institutions. They have been called by Bryce "the oldest of the oldest" and by the political history of America, "the first of the first."

And again, "the first state constitutions were little more than the pre-existing colonial constitutions adapted to the changed circumstances."

Progress.

The man who is ready to give up the opinion he will hold tomorrow will be precisely the opinion he holds today has either thought very little, or to little purpose, or has resolved to quit thinking altogether.

Belton Hunt Jackson.

Can Be Made So.

Flattery may be a vice, as one of the ancient philosophers said, but sometimes "plain speaking" almost seems to be.—St. Louis Globe Democrat.

Why, of Course.

A young woman in distress writes: "We sent out sixty wedding invitations and only nine presents have been received. What shall we do?" How unresourceful you young people are! Get busy and rush out a follow-up letter.—Exchange.

Computation of Centuries.

A century is a period of one hundred years. This is the most common signification of the word, and as we begin our computation of time from the incarnation of Christ, the word generally is applied to some term of one hundred years subsequent to that event, as the first century A. D.

Power of Philosophy.

Philosophy can take us no bread; but she can procure for us God, free love and immortality.—Scotts.

Why Rheumatism Comes With Cold Weather

A close connection exists between those two—cold weather and rheumatism. Prof. Alex. Haig, of London, has the most followers in the medical profession in the belief that the presence in the system of uric acid, or its salts in excess, is the real cause of rheumatism.

Several causes may lead up to an accumulation of uric acid in the system, which, in turn, causes rheumatism or gout, creaky or painful joints, or swollen fingers. For one reason the skin does not throw off the uric acid, by profuse sweating, as in hot weather, and the kidneys are unable to take care of the double burden.

Does It Catch You—right in the back?

It may be that you are attacked by pain in back (lumbago) or limbs, "neuralgic" pains—shooting anywhere. Backache is often caused by kidney disorders, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, overworking the sick kidneys. Perhaps you have become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, and lack ambition to do things. The latest and most effective means of overcoming such trouble, is to drink plenty of water between meals, and take a single An-uric (anti-uric-acid) Tablet before each meal for a while, or until recovered.

Many folks in town as elsewhere in this state have been benefited. Bradford, Pa.,—"For ten years I suffered with kidney and bladder ailments, my kidneys were congested and inactive causing me to have severe lumbago pains through the back and hips. I also had what the doctors called uric acid poisoning and I would have headaches and spells that would last for a week at a time. I took three bottles of Dr. Pierce's Anuric (kidney and backache) Tablets and was completely relieved. Have never had another attack."—L. F. Wilson, 61 York St.

Simply ask your druggist for Dr. Pierce's Anuric (kidney) tablets. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial pkg.

The New Spring Suit

Written by HEDDA HOYT
Fashion Editor of The United Press
(Written for the United Press)

New York, N. Y., Feb. 9. (United Press)—The sash is the tie that binds the spring suits together. Whatever be their lines, there is bound to be a sash of some description on the new suits.

There are several types of suits for the coming season, but the type which will be universally accepted is the two piece suit, with the short jacket which fastens at one side with a bow not of looped sash end. Coat blouses of printed silks and jersey cloth will be worn with them and there never has been such a vast display of printed blouses as there is now.

Youthfulness is the keynote of the spring styles. Straight, slender lines are to be the thing for the coming season. Jackets are confined rather snugly about the hips over slender skirts.

One of the most successful models that is already being sold in the shops is the suit of tan colored Vicuna cloth which is soft and woolly in texture, though light in weight. It is bound in braid of self-color and tied at one side with a wide tan satin ribbon bow. The short jacket is made on simple lines, adding an appearance of youth and chic to an inexpensive suit. Worn with a blouse of Paisley coloring, this type of suit is extremely smart.

For sports wear the "natural" colored tweed suit is of the smartest costumes for early spring. Worn with colorful hand woven scarfs and the new, small, felt sport hats, they become extremely chic. Many of the

fashionables at Palm Beach are simply living in these sport suits. Lately it is considered good form to wear them for most all occasions. It is not unusual to drop in at a country home to tea and find one's hostess in a knitted or tweed sport suit with a white blouse. Even formal calls do not demand the dressy gown today. A good rule to follow when in doubt as to what to wear is wear a sport suit.

A navy Pointe will gown imported from Paris is trimmed with dull green and purple velvet and has an accompanying hat of green straw trimmed with side pompons of purple velvet. The mixing of purple and green in dull shades is extremely popular in Paris at present especially for millinery.

Short Paisley jackets worn with an skirts will be seen this spring. The Spanish shawl is said to be the coming style for evening wraps for spring and summer months.

Lace and crepe is a popular combination for the dressy gown that is increasing every day. The lace is dyed to match the crepe and is used as sleeves, panels and as insets in the many-tucked crepe dresses.

The beaded gown has been dead and buried, according to designers, but its ghost is reappearing in the new spring styles. There are as many beaded gowns as there ever was and they are considered in good taste, in spite of the many cheap models that flooded the markets. The latest gowns are using beads of various shades combined in interesting oriental designs. One-toned beading has given way to more colorful effects.

Opinion Held by Too Many.

"Something ought to be done about everything," said an ironic philosopher. But what accounts for so many thinking they are Hamlets and exclaiming with him: "The time is out of joint. O, cursed spite, that I was born to see it right!"

Original Verses of Burns Found.

Four original verses written by Robert Burns were discovered in an old volume recently offered for sale in London. Inscribed in pencil, they have been inked carefully over by the first owner of the book, a friend of the national Scottish poet.—London Answers.

Why, of Course.

A young woman in distress writes: "We sent out sixty wedding invitations and only nine presents have been received. What shall we do?" How unresourceful you young people are! Get busy and rush out a follow-up letter.—Exchange.

Computation of Centuries.

A century is a period of one hundred years. This is the most common signification of the word, and as we begin our computation of time from the incarnation of Christ, the word generally is applied to some term of one hundred years subsequent to that event, as the first century A. D.

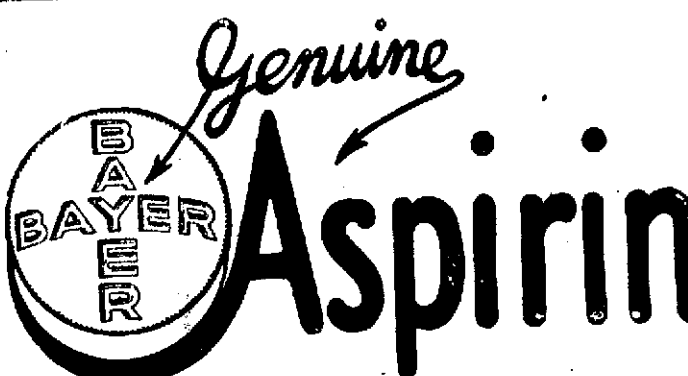

Power of Philosophy.

Philosophy can take us no bread; but she can procure for us God, free love and immortality.—Scotts.

Blue Grass Beauty

Miss Gladys Hicks, winner of the American Legion beauty contest in Louisville, Ky., has been cast as "Miss Columbia" in the prologue, which will introduce the legion's film, "The Man Without a Country."

SAY "BAYER" when you buy Aspirin

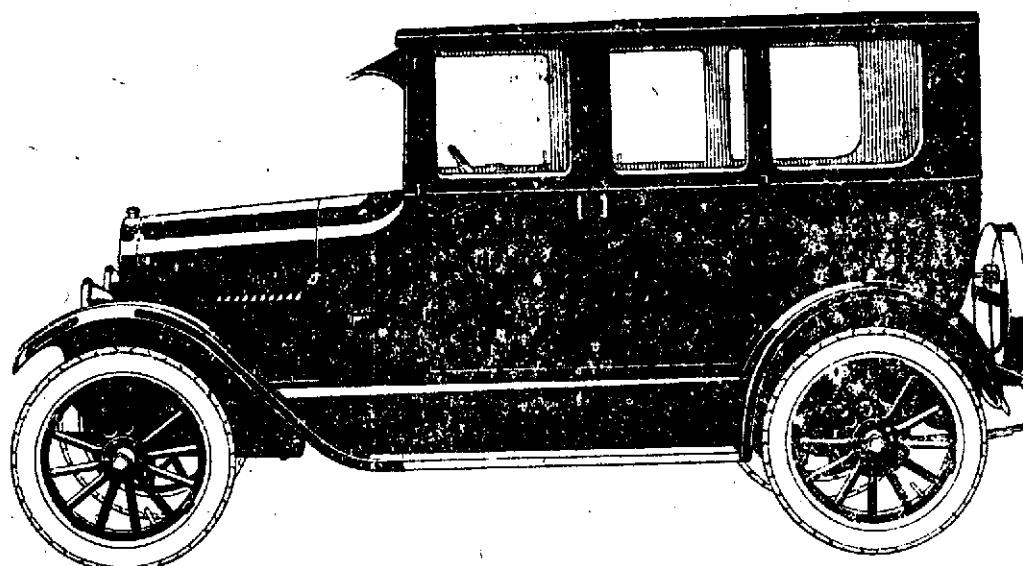

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty years and proved safe by millions for colds, headache, toothache, carache, neuralgia, lumbago, rheumatism, neuritis, and for pain in general. Accept only "Bayer" brand which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the Monacetic Acid Ester of Salicylic Acid.

Signs That Command Attention.
"Drive safely. A fatal accident occurred here." A number of signs bearing this inscription have been posted on a Massachusetts highway near Boston, at points where persons have been killed by automobiles.

Immune From Influenza.
There is one place always absolutely immune from influenza. This sanctuary is the chicken, warren, connected with London's docks. No employee has ever been attacked by the disease.

OTHELLO RANGES

A product which has become famous entirely through merit.

Wherever the name "OTHELLO" is heard it is understood to represent the highest type of kitchen range ever produced. "OTHELLO" spells house-keeping comfort in the highest degree.

The OTHELLO is the perfect range, because every part and principle is the result of test and elimination.

But aside from the mechanical principles, did you ever stop to consider the features that govern a woman, in making her choice of a Range? They are refined simplicity, ease of operation and durability—good service.

Why Contract Now? This Is Why

You can reserve a Round Oak Pipeless Heating System now, for installation any time you elect. Thus your investment is absolutely safe against depreciation. And you are sure of having a genuine, economical, long-lived

Round Oak PIPELESS HEATING SYSTEM

Installed without haste, to circulate warmth and comfort throughout every part of the house. It will pay you to act now—there's everything to gain, nothing to lose.

Inspect its massively oversize parts, anchored forever leaktight by a patented method. Special inducements on early orders—liberal terms. See us at once!

The McDougall Cabinet Will Lighten Kitchen Work

Women who enjoy their kitchens will delight in this model; those for whom kitchen work has proved a burden, will find it a revelation. Imagine in preparing your meals, having the advantage of the following McDougall Superiorities:

Auto-Front curtain; self-extending drawers; sliding porcelain table top; lowering flour bin; steel corner braces; sliding bottom in utensil compartment and sanitary metal-topped glass, coffee, tea and spice jars.

NOTICE OF APPLICATION FOR CHARTER

Notice is hereby given that an application will be made to the Governor of Pennsylvania on the 5th day of March A. D. 1923, by H. J. Thompson, C. O. Norris, C. C. McGee and others, under the provisions of the Act of Assembly entitled "An Act to provide for the incorporation and regulation of certain corporations," approved April 29th, 1874 and the supplements thereto, for the Charter of an intended corporation to be called "M and N Coal Company," the character and object of which is mining and otherwise producing coal, preparing the same into lump and the selling and shipping thereof, and for these purposes to possess and enjoy all the rights, benefits and privileges of said Act of Assembly and the supplement thereto.

ROLAND D. SWOOPES,
Solicitor for Applicants.

NOTICE IN DIVORCE

In the Court of Common Pleas of Clearfield County, Pennsylvania.
Mary J. Zigler vs. Joseph D. Zeigler. No. 200 December Term, 1922.
To Joseph D. Zeigler, respondent:
YOU ARE HEREBY NOTIFIED that the undersigned Master, appointed by the Court to take testimony in the above entitled case and report the same to the Court with form of decree, will sit for the purpose of his appointment at his office in Clearfield, Pa., on Saturday, March 3, 1923, at 10:30 a. m., when and where you may attend with your witnesses and give testimony.

ALLISON O. SMITH,
Clearfield, Pa. Master,
February 5, 1923. 2/9/23

To Clean Eyeglass Chains.
The fine safety chains which are worn with eyeglasses are rather difficult to clean because they are so small. The best plan for keeping a chain of this kind bright is to give it an occasional bath in a saucer of soapy water. If very tarnished, it should be laid on a soft piece of flannel and scrubbed with a stiff toothbrush. It can then be rinsed in a tubful of methylated spirit and dried on a piece of leather.

Chickens Got the Water.
I asked my little son, not quite four, to carry a pan of water down to the chickens. He soon returned with the empty pan. I said, "Why, Paul, I wanted you to give that water to the chickens." He answered, "I did, I threw it through the gate."—Exchange.

To Clean Aluminum.
The best way to clean aluminum is to squeeze the juice of a fresh lemon over a cloth and apply this to brighten the metal. When the aluminum is very much soiled a paste of whiting and water will help to clean it.

Unite To Save Future U. S. Citizens From Handicaps of Malnutrition and Ill Health

These four little United States citizens, ranging in age from babyhood to boyhood, illustrate graphically the indifferent nurture and care given to the great majority of our children.

America, the richest country on earth, today ranks last of the nations advanced enough to have statistics on maternal mortality, being twentieth on the list. It ranks sixth in its infant mortality rate. Twenty thousand mothers and two hundred thousand babies, such as you see in this little boy's arms, die here in 1920. And of all the babies who survive birth, barely seventeen out of every hundred reach maturity in proper physical condition. Of twenty-two million school children in America now at least six million are suffering from serious malnutrition, and urgently need medical attention, if they are not to grow up seriously handicapped.

It is to combat such a situation, to make America safe for its own future citizens, that the American Child Health Association has been formed. Herbert Hoover is its president, and it is a union of two great national organizations which have long been doing child health work in America. They are the Child Health Organization, whose president is Dr. L. Emmett Holt, and the American Child Hygiene Association, which for thirteen years has been fighting for better conditions of mother and child under the presidency of such national figures as Dr. Samuel McClintock Hamill, of Philadelphia; Dr. Philip Van Ingen, of New York; Dr. Henry L. K. Shaw, of Albany, N. Y.; Dr. J. H. Mason, of Lowell, Putnam, of Boston; Dr. St. Josephine Baker, of New York; and Josephine Baker, of New York. Its governing body will also include Dr. Livingston Farrand, President of

Cornell University, former chairman of the American Red Cross, and Dr. Thor. D. Wood, of Columbia University. Its ambition, briefly, is to give every American child a chance for health beginning with the period preceding its birth and continuing until it reaches maturity. Such a program is not feasible without the co-operation of every individual and every active agency in the country. Therefore the American Child Health Association opens its doors to all. In Child Hygiene Association brings into co-operation 321 affiliated organizations scattered throughout the United States and Canada. The aim will be to provide "here and there" with such information and assistance as will help to spread the gospel of well children. National headquarters are at 532 17th Street, Washington, D. C. Treasurer is Mr. Corcoran Thom.

COUNTY LIBRARY IS SPEAKER'S SUBJECT

Continued From Page One

tutions by properly educating the masses, presenting the following points in support thereof.

How is it educative?

1. It gives to those denied high school and college the means of studying at home.

2. To those engaged in "useful occupations" it gives books the study of which will fit them for higher positions.

3. To teachers it gives the books and magazines necessary, if they are to keep pace with the development of their profession.

4. To pupils in school it gives information beyond that contained in text books.

Does it benefit business men?

It places at their service indexes to all the leading business and technical periodicals as well as many of the periodicals themselves. Also the latest books on industrial efficiency and business methods. It keeps complete files of the Government and State labor reports and similar material.

It gives to employees of business men the books needed to make them more efficient and to enable them to fit themselves for better jobs.

How does it benefit the community as a community?

Schools, churches, clubs and organizations in general, cannot do as good work without an efficiency library as with one. A community's reputation depends largely on its educational and recreational opportunities. Good schools and good libraries are necessary if desirable persons are to be attracted to become residents.

Has it any part in Americanization?

A leading part! Children of non-English speaking parents use it and carry English books into the houses of foreigners. American books are the apostles of American ideas.

Foreigners who can read English use it, and from the books they borrow gain an understanding of what Americanism really is.

By supplying good, healthy reading matter, it does much to curtail the reading of vicious and injurious books by boys. The boys of today are the men of tomorrow.

The county library would be supported by public taxation. DuBois people pay a two-mill tax for the support of their public library, and while that would be the maximum assessment for library purposes, a county library tax of say one mill would make the proper start.

The Rotarians were very much impressed with Mr. Pentz's remarks and the Educational Committee agreed to heartily support the movement.

Rev. E. Roy Hauser, of St. John's Lutheran church, a guest of the club, then introduced Dr. Byron W. King of King's School of Oratory at Pitts-

burg, who was here to lecture at St. John's church, and who was also a guest of the Rotary Club. Dr. King, who is no stranger in Clearfield, gave the Rotarians a pleasant half hour. He opened his remarks by paying worth-while compliments to old Pennsylvania and Clearfield county. He is a native Pennsylvanian and no Pennsylvanian is prouder of his home state. He followed this with healthy, wholesome, old-fashioned philosophy, tied together with the golden cord of typical King humor which added zest and enjoyment to his every point. His reference to one touching episode in his long life as a teacher made a lasting impression upon his hearers, while one did not have to wonder when Dr. King said he had quit attending funerals and had quit buying tombstones. His mission is to bring joy into the lives of those with whom he comes in contact and he sure is some "missionary."

Dr. King's remarks were exceptionally enjoyable and the Rotarians showed their appreciation of same by their very generous applause.

The Nuisance in the Triangle.

A Georgia judge says the only safe "triangle" for a man to get united up with is a wife, a pipe and a dog. That's all right, and we tried it out once, but for the sake of peace we had to get rid of the dog—Detroit Free Press.

Love of Argument.

"Why is betting an almost exclusively masculine habit?" an exchange inquires, and a cynical correspondent answers: "Men choose betting as a means of stopping an argument stopped; women never want an argument stopped."—Boston T. morning.

Lucretian Philosophy.

Fly no opinion because it is new, but strictly search and after careful view, reject it if false, embrace it if its true.—Lucretius.

Flowers

Our stock is fine. Sweet Peas, Carnations, Marquisettes and Snap Dragons. Let us have your order. Valentine Day is near and there is nothing more appropriate than flowers. If in doubt, make it Flowers. In potted plants we have Primroses, Cyclamens, Canamias and Joss Lilies. Roses, Lilies, Violets and all other flowers furnished to order. But we must have 24 hours to fill, counting from 12 o'clock noon of each day.

Collins' Green House
H. & C. Phone 266-W-3.

GIRL SCOUT NOTES

Staff meeting, Monday evening will be next to the last in the course in second class work given by Mrs. Lawhead. Growing interest is being shown in the course and movement as a whole in Clearfield. Very important phases of this stage of the work will be discussed at these last two meetings so attendance is almost necessary.

House committee, attention! The February meeting will be on Tuesday afternoon immediately after school, 2 o'clock. There is a long list of very important Scout matters needing immediate attention to every troop must be represented.

If there are any more used pianos ready to go on the market, now is the time to break the news for by hook or crook the Scout home must have one and at a price within the range of such an organization. There has been no intention of making money calls a bar to membership so what they spend they must earn—and be helped to earn it. A piano may appear a needless extravagance but a piano is a genuine necessity.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

A social dance in the rooms of the Red Men last evening was an event that caught a goodly number of the young people who delight in passing away an hour or so in that pleasure.

The rooms occupied by Funeral Director Doverspike in the Sweney block are being remodeled in a manner that will give more room for harboring the stock, etc. The shelving and counters will be removed entirely and some alterations made for convenience.

A report was put in circulation by some one the other day, relating that Mr. Carpenter had sold the Park hotel building. We interviewed John Fox, the present occupant of the building, as to its authenticity and he immediately informed us that he had heard nothing by which the sale could be confirmed, but that he expected to keep right on conducting that hostelry as he had been for the past two or three years.

Mrs. Olson Johnson, who has been ill at her home in George street for several months, is reported as being in a very serious condition, and that her friends have little hope for her recovery.

L. W. Spencer, one of the town's enterprising merchants, has been confined to his home on Ridge avenue for the past three days fighting a severe cold.

The ladies of the Presbyterian congregation assembled yesterday for their annual quilting bee. They put in a full day on the job, having thoughtfully taken their noon-time lunch with them.

Mrs. Cecil Bloom, of Clearfield, was up from the county seat yesterday and spent some time with friends.

A number of ladies determined to have a good time Wednesday evening without being bothered with cigar smoke and hubbly, so procuring a conveyance on runners hid themselves to Hyde City, landing in the home of Ben Post and family, where at the proper hour feasted on "weenies" and lots of other good provender. They had such a good time that time flew unforgettably until several hours after the midnight chimes had sounded, when the return home was made.

A salesman who came to Curwensville yesterday morning from DuBois, over the B. & P., is authority for the statement that a short distance above Bloor's Run a bunch of twelve deer was seen feeding not over one hundred yards from the track.

Next Sabbath will be the first day's proceedings of the reopening of the Methodist Episcopal church. The day's program will be as follows: At 11 o'clock a. m., Rev. J. H. Price, of Huntingdon, Pa., will occupy the pulpit. At 2 o'clock p. m., a women's other business, in connection with mass meeting has been arranged to their interests.

take place. Just what day will be decided upon, but it will be some day from a distance. The evening service at 7:30 p. m. will be in charge of Rev. Nelson A. Price, Burma, India. Live condition pertaining to this occasion has been looked after carefully and there will be no hitch in the carrying out the week's program whatever. The Methodist people can be heartily congratulated for the manner in which the preaching auditor has been remodeled and refurnished. It required lots of time and perseverance by those who were interested deeply in making this house of worship a pleasant place to gather on the Sabbath day. The balance of the program will be given in the Progress column daily as it occurs. Pastor Collins has spent a great deal of time in getting the church ready for this rededication, and would be more than pleased to see every member of the church, big and little, present on the opening, next Sabbath.

Dr. Byron W. King, accompanied by Rev. John Cameron, of the Baptist church, spent several hours in the High School building yesterday forenoon. He gave an hour's talk to the pupils which was highly appreciated by them.

Do not let us forget the importance that is attached to the Swarthmore Chautauqua that will be in Curwensville for three days during next week, starting the first day's program on Tuesday afternoon, February 13th, and ending with the night of the 15th. The first program to be rendered is an interesting one within itself, and will start with a series of lectures by the Chautauqua superintendent, followed by a grand musical concert by the famous Fisher-Shenk company after which the Junior Chautauqua will have its inure. The evening entertainment will commence with another musical concert by the Fisher-Shenk company, and when that is ended, William Seeling Battis will deliver his interesting and instructive lecture entitled "Life Portrayals," which alone is well worth the price of a season ticket.

C. T. Doverspike of New Bethlehem (not the alode of where the Son of Man was born however) is a guest of his brother C. E. Doverspike this town's funeral director. These two brothers resemble each other remarkably and it would be well enough for our Doverspike to keep a weather eye on the Bethlehem Doverspike in order to prove an alibi in case any pranks were played to his expense.

One of Curwensville's taxpayers recounted yesterday that he imagined that it would be an excellent idea if our two village assessors would get together ascertain what property owners had doubled the tariff on rents and then assess those properties in proportion to what revenue they bought the owners. Not such a bad suggestion after all is said and done.

The ladies of the M. E. church held a 25 cent luncheon yesterday in the west room of the church the proceeds of which will be added to the carpet funds.

Several of the leading men congregate will be as follows: At 11 o'clock a. m., Rev. J. H. Price, of Huntingdon, Pa., will occupy the pulpit. At 2 o'clock p. m., a women's other business, in connection with mass meeting has been arranged to their interests.

Amity must be at its height among the young fry who are attending several of the departments in the stone building. The writer counted no less than half a dozen pugilistic encounters going on between Kirk's corner and the school building yesterday afternoon directly after the schools had been dismissed. Several of the fist-cuffs were real lively too, while they lasted, and in one particular case blood flowed profusely from the proboscis of one of the combatants. Oh, well, a little blood letting does not injure the growth or intelligence of a school kid a great deal so let them exercise in that direction at will.

The Loyal Order of Moose that had planned to throw their hall and several rooms open to the public one or more nights a week for the purpose of amusements such as dancing card parties or any social enjoyment that could be carried on has decided to postpone the arrangement for a time or at least until the revival meeting has closed and the several other entertainments which have been booked to take place in this town during the month have had their Irving and passed into the discard of the past. This lodge is not composed of tight wads and its members are firm believers in the theory of giving entertainment and pleasure where it is due. This lodge in a financial way has contributed a whole lot more for the benefit of people in this community than they have been given any credit for.

OBITUARY

CHILD DEAD OF DIPHTHERIA
The 14-months old child of Mr. and Mrs. Hugh Appleton died at the home of its parents in Pike township at 11 o'clock yesterday morning. Interment was made at Centerville this afternoon.

FORMER GLEN RICHEY DOCTOR DIES

Dr. T. C. Twitmore, formerly located at Glen Richey, died at 4 o'clock this morning at his home in Juniata Pa., aged about 66 years. The funeral will be held Sunday leaving the home at Juniata at 12 o'clock and proceeding to Bellefonte where interment will be made.

DEATH OF DAUGHTER OF LATE W. LANSBERRY

Mrs. Della Della Allen, of Lock Haven, a daughter of the late William Lansberry, of Morris township Clearfield county, deceased, died Wednesday morning, February 7th, 1923, at the Lock Haven hospital, where she was admitted on Saturday, Feb. 3rd, and underwent an operation the following day for strangulated hernia. She was convalescent from an attack of pneumonia, and was still weak when it became necessary to perform the operation.

Deceased was aged about 38 years. She was a member of the M. E. church, a good woman and devoted to her home and the rearing of her seven children, who, along with the husband, survive. She has a brother

George W. Lansberry, residing in Clearfield, and a half sister and half brother, Margaret and Orville Lansberry, living at Morrisdale. Miss Margaret will attend the funeral, which will take place tomorrow.

JOHN BROTHERLIN CALLED BY DEATH

John Brotherlin, member of one of Blair county's oldest and best known families, died Thursday morning at 11:35 a. m. at Altoona hospital, death being due to pneumonia. His condition took a serious turn on Tuesday and he was removed to the hospital that afternoon.

He was born in Hollidaysburg on June 8, 1879, the son of J. Irvin and Mrs. Jennie Lemon Brotherlin. He was a nephew of the late Dr. H. H. Brotherlin.

He was a graduate of the Mercersburg academy in the class of 1897. He then entered the Boston School of Technology where he took a course in chemistry.

On Jan. 2, 1909, he was united in marriage with Miss Mary Lillian Hewitt, daughter of Attorney and Mrs. Oliver H. Hewitt of Brushfield, who survives.

Following his graduation at Boston he accepted a position as general superintendent of Hiram Swank's Son's fire brick operations in Clearfield county, with headquarters in Irwin, but maintained his residence in the Mayo apartment in Altoona.

He was a thirty-second degree Mason and was a member of the First Presbyterian church of Hollidaysburg. The deceased was well known in Clearfield, where news of his death came as a sad shock to his many business and personal friends.

JORDANS

Gossip For Tonight's Tea Table

Mr. and Mrs. W. A. Flanagan, of Detroit, Mich., arrived in Clearfield today, called here by the serious illness of Mrs. Flanagan's father, Frank Connolly.

C. W. Sawyer, of Ansonville was a visitor in town yesterday.

Mr. and Mrs. Louis Shapiro left yesterday for Philadelphia. Mr. Shapiro will return in a few days but Mrs. Shapiro will visit her daughter, Mrs. Joseph Fyne for some time.

Harry Catchart, of Olanta, was a Clearfield visitor yesterday.

Ashley H. Wilson, of Bradford township, transacted business in town today.

Mrs. Elva Whipple, of DuBois called on friends here today.

Miss Lenetta Ibberson of Philipsburg, is the guest of Mrs. Oberdick.

Mrs. C. H. Moore entertained her bride club last evening.

Ted Wright of Johnstown, is spending several weeks at his home here.

Doctor and Mrs. Geo. W. Brett left yesterday for Altoona where they will visit Doctor Ray.

Mrs. Clark of Mahaffey, spent Thursday in town.

James W. Ruffner, of Madera, was a Clearfield visitor yesterday.

A. H. Woodward transacted business in Harrisburg on Wednesday.

Mrs. W. W. Van Allen left today for DuBois, where she will visit Mrs. Lyle Hall and attend a luncheon and bridge given by Mrs. J. E. Merris and Mrs. Hall on Saturday.

R. D. Swoope, of Curwensville, spent Thursday in town.

James Clegg, of Philadelphia, spent the day here yesterday with friends on his way to Pittsburgh.

W. O. Guhranson, of Houtzdale, was a Clearfield visitor yesterday.

C. T. Sprague has returned to Philadelphia.

Miss Grace Kline is ill with grippe at her home on Merrill street.

Mr. and Mrs. Edward P. Dutton left on Wednesday for New York, where they will spend the week end.

Thomas McClynn, of Bannan, was a business visitor to Clearfield today.

John B. McGrath, Esq., of Houtzdale, had business at the Court House today.

The English Language.

The English language is said to consist of 700,000 words, but nearly half are either obsolete or scientific, seldom used in conversation. It has been calculated that nine-tenths of our words are of Saxon origin.

True Greatness.

To be popular at home is a great achievement. The man who is loved by the cat, by the dog, by his neighbor's children and by his own wife is a great man, even if he has never been mentioned outside of the circle of those who love him.

Happiness and Unhappiness.

All happy families resemble one another; every unhappy family is unhappy in its own way.—Tolstol.

Home Made Candy

For Week-Ends

We will have plenty of that good home made candy for your week-end eating again. The peanut brittle is exceptionally good and the cocoanut brittle runs it a close second.

How many pounds did you say?

**STEWART'S
DRUG STORE**

(CLEARFIELD, PA.)

Man to Be Watched.
The man who is really good never gives one the impression that he knows he is good. The man who tells you how good he is, like the man who boasts of his honesty, may be a pretty good counterfeiter, but he certainly isn't legal tender.

Starting on the Furniture.
An authority on the fuel situation declares that we must "learn to eke out by burning oil, gas, electricity and what not." We are glad he mentioned the what not. Mary, hand us the ax.—Berton Evening Transcript.

Shake Off Self-Distrust.
Self-distrust is the cause of the most of our failures. In the assurance of strength there is strength, and they are weakest however strong who have no faith in themselves or their powers.—Burle

Impossible Happening.
"What a terrible thing it must be," said he, "for a woman to discover a love-letter in the pocket of her husband's coat just after she has mended it neatly and lovingly!" The woman smiled. "That could never happen," she said. "The woman would find the letter first—then she would not mend the coat."

He's a Philosopher.
Little George is an embryonic philosopher. He said the other day at table: "Now, when I sit in my chair my feet won't touch the floor, but when I walk around they touch the floor as well as anybody's."—Woman's Home Companion

Egyptians Wore Thimbles.
What was supposed to be the first thimble was made in the year 1084, but devices of an apparently similar pattern have been found in Egyptian ruins.

In the Majority.
The pessimist looks regretfully back, the optimist looks hopefully forward, the ordinary mortal just groans and smiles through today.—Boston Transcript

Here is a new variation of the uniform. Plain lines, a new sleeve and a side panel that is made of velvety—and the modern business woman starts out in the morning tired for anything that may happen.

SOMETHING NEW FOR YOUR SUNDAY DINNER

**THE MORE
MILK YOU DRINK
THE BETTER
YOU'LL FEEL**

There is no question about it, the more milk you drink, the better you will feel. The grind of the everyday tasks tears down your system and if you're going to stand the grind, you'll have to put something into your system to make the repairs.

When you begin to drink more of our milk, you are putting into your system that food which contains everything that is needed for the rebuilding of what you tear down.

Then, too, the fact that our milk is pasteurized makes our milk doubly safe for you to drink, as every possible precaution is taken to have that milk pure.

Clearfield Dairy Co.

**IREPAIR WATCHES
AND CLOCKS
RIGHT**

There isn't a job that goes out of this shop but what goes out with the guarantee that it is working right. It matters not what may have been wrong with the watch or clock when it was brought in here—it goes out right.

Some folks have brought us some pretty hard jobs to do but we have stuck to those hard jobs until they were working right and have had the satisfaction of knowing that we pleased a customer by the way in which the work was done.

If your watch is not keeping time as it should, bring it here.

W. W. O'BRIEN
